

For All Providers, Pharmacists, Discharge Planners, Ambulatory Staff Rx Savings Offers Added to Patient's AVS

If an offer is available, it will automatically be added to the list of documents to print.

1. Available offers will automatically print with the AVS and display in MyChart with the AVS under **MyChart > Appointment Details**.
2. Documents listed in the **Documents to Print** section but not printed can also be viewed in **MyChart** under **MyChart My Document Center**.

A screenshot of a web application interface titled "After Visit Summary". The interface is divided into several sections. On the left, there is a sidebar with "Documents to Print" containing "HM AMB AVS MAST..." and "Rx Savings Offers". Below this is "Available Documents" with "COVID-19: Share the...", "COVID-19: Overview...", and "Frequently asked qu...". At the bottom of the sidebar are "Change Font Size" controls (three 'A' icons), a "Language" dropdown set to "English", and a "Print 2 docu..." button with a printer icon. The main content area is titled "Rx Savings Offers Selected to print" and contains a section "Encounter-Level Documents - 05/04/2020:" with three entries: "RX Coupon - NPMR - Scan on 5/4/2020 3:27 PM: MEDICOM", "RX Coupon - NPMR - Scan on 5/4/2020 2:39 PM: MEDICOM", and "RX Coupon - NPMR - Scan on 5/4/2020 2:10 PM: MEDICOM". At the bottom of the interface, there are navigation links: "+ ADD ORDER", "PRINT AVS", "4" (with a document icon), and "SIGN VISIT".

3. If an offer is not available, the screen will appear as seen in the image below. This ensures blank documents are not printed or sent to a patient's **MyChart** account.

Note:

- Patients can use savings offers at their preferred pharmacy.
- If a matching coupon isn't found or if the medication is generic, a **SingleCare** discount voucher is provided for patients to use at their pharmacy.
- **SingleCare** also looks up pharmacies closest to the patient's home address and lists the discounted price offered at each pharmacy.
- Make sure you remind your patient about the **Rx Savings Voucher!**
