

Government Relations highlights include:

- Meetings with CouncilMembers Johnson, Young, and Thomas along with their key staff members to discuss CCRA priorities and how we can work together to achieve our common goals.
- Ongoing monitoring of Council legislative activity to determine if and when CCRA should testify to represent our interests.
- Representing residents who reside along the CSX railroad line to have CSX stop the overnight idling of the train which causes extreme noise and significant quality of life issues. We are working with both local and federally elected officials to have a previously legally binding agreed upon enforced.
- Government Relations had a sidebar meeting with Kenyatta Johnson, 2nd district council member and Council President, and his Chief of Staff John Christmas to arrange for a January meeting to discuss the CCRA Bike Task Force recommendations.
