

Indiana Health Coverage Programs Enrollment Trend Highlights – February 2026

IHCP Program Membership:

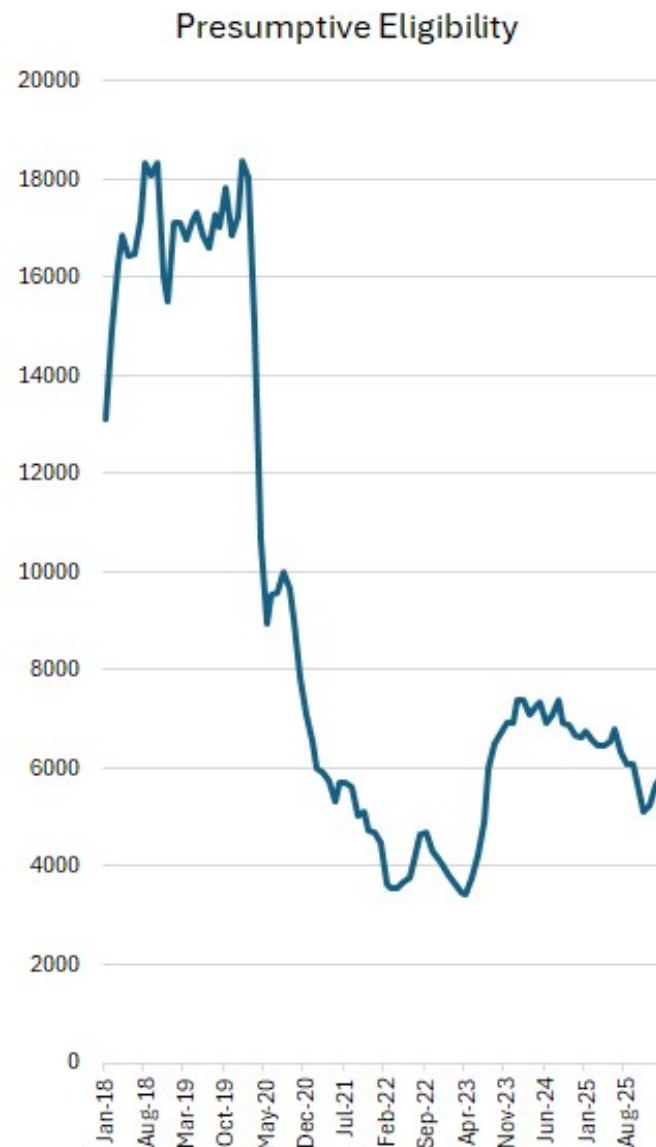

Total Membership decreased in February. With **1,607,611** members, there were **23,448**, or **1.44%, less** members in February 2026 than in January 2026. Total Membership has fallen for **eleven** months in a row.

Category Membership:

Three of the five major categories declined in February. HIP membership saw the steepest decline again, falling by the largest percentage and absolute number. Hoosier Care Connect added over 400 members.

Insights:

The chart tracks enrollment Presumptive Eligibility(PE) categories since 2018. PE provides immediate, temporary coverage for those who qualify based on reported income and residency. It allows individuals to access services while their full application is being processed. PE utilization was much higher before the Public Health Emergency(PHE). Membership rose during the PHE Unwinding but did not reach the Pre-PHE levels. Recent reforms look to lower PE levels further.
