

Indiana Health Coverage Programs Enrollment Trend Highlights – July 2025

IHCP Program Membership:

Total Membership decreased in June. With **1,814,995** members, there were **41,277**, or **2.22%**, **less** members in July 2025 than in June 2025. In the last four months, IHCP membership dropped by over **155,000**.

Category Membership:

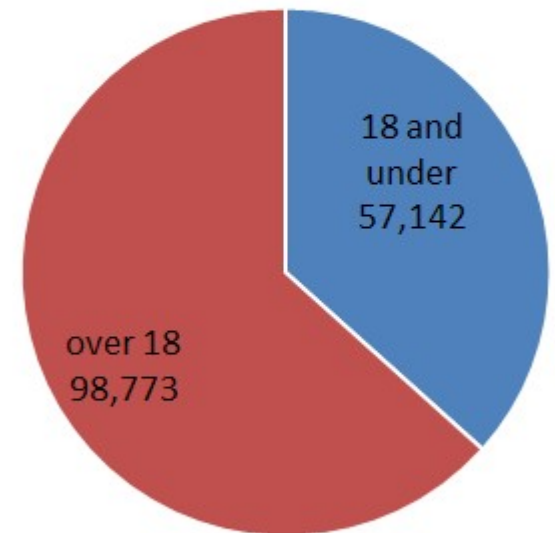

Membership decreased in three of the five major categories in July.

Insights:

The chart on the right shows the net loss in IHCP Membership since March 2025 by age group. The only age group that had a net positive increase since March were 70-79 years olds, which added 213 new members.

The June issue of this document asserted there were no significant policy changes to account for the drop in membership; however, in the recently released [June 2025 Quarterly Financial Review](#), on slide 203, FSSA states “...recent enrollment decreases are due to changes in the Medicaid Eligibility Redetermination processes...”

Net loss in IHCP Membership by Age Group since March 2025

	HHW	HIP	FFS	HCC	PWA
July	705,371	672,919	239,415	80,066	117,224
