

Indiana Health Coverage Programs Enrollment Trend Highlights – September 2024

IHCP Program Membership:

Total Membership increased in September for the first time since May 2023. With **1,976,259** members, there were **11,005**, or **0.56%**, more members in September 2024 than in August 2024.

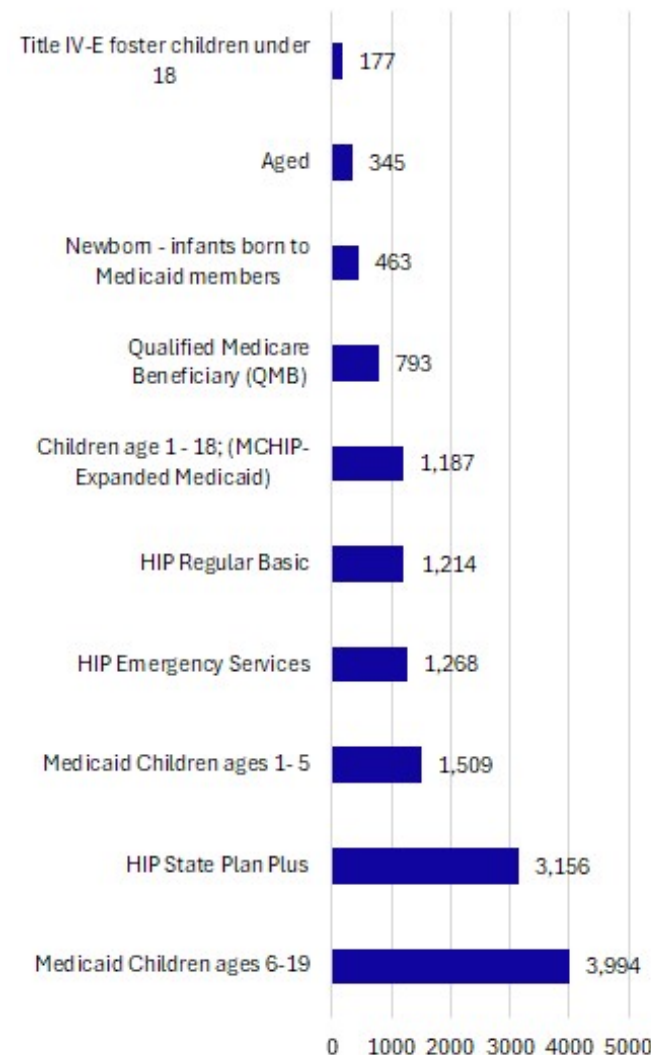

Category Membership:

For the first time since April 2023, each of the main categories gained members. HIP gained the most members, with HHW a close second.

Insights:

The chart to the right has top ten categories that gained members. Medicaid members, ages 6-19, led the way with nearly 4,000 new enrollees. HIP State Plan Plus for Low-income Parents/Caretakers and Medically Frail adults added the next highest amount of people at just over 3,100. *Typically, we don't try to analyze the reasons for trends. However, the data shows the largest enrollment increases during back-to-school season were among school-age children and low-income parents/caretakers. This indicates the boost is likely due to families reconnecting with schools and social services after the summer break.*

New Members in September

	HHW	HIP	FFS	HCC	PWA
July	760,324	757,461	252,653	78,254	116,759
1 mth.	-0.20%	-0.22%	-28.10%	-17.15%	-
6 mth. avg.	-1.19%	-1.05%	-24.68%	-15.37%	-
