# THE PROCESS

INseARCH is a full service company from graphics to software.

## Step 1 - DISCOVERY

Discovery of most appropriate assets for the project

## Step 2

Scope of assets itemized and approved for project

## Step 3 - LET'S GO!

Signed work order

## Step 6

Develop custom brand features for application

## Step 5

Deliver assets for approval

## Step 4

Receive asset files from client and begin graphics

## Step 7

Launch initial app for approval

## Step 8

Insert all Graphics into Interactive application

## Step 9 - LAUNCH!

Purchase touchscreen, launch app., train sales staff

We have created an application that allows us to be both custom AND provide a quick delivery!

INseARCH is a full service company, we can provide all graphics as needed but our application can accept all other outside graphics

From Discovery to Launch, our entire process takes roughly 1 month (depending on amount of graphics required) to launch!

we sell touchscreens

Contact INseARCH for help with touchscreens, kiosk options and purchasing!

775-772-9385

# GRAPHICS

Below are just a few examples of our graphics, many options and styles are available within each of the below categories.

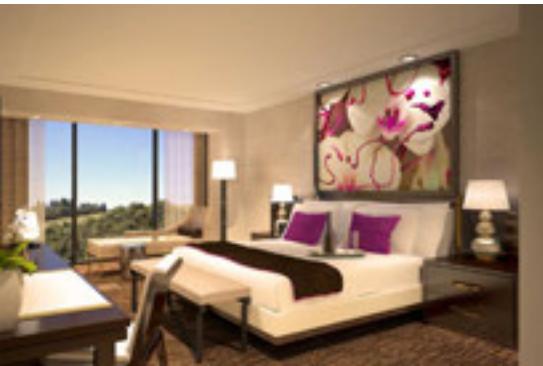

## Floor Plans 2D and 3D

Our floor plan graphics are meant to illustrate your spaces the best way possible. Conveying what the space will feel like is very important to a home buyer. If you have static plans with limited to no options we recommend our 3D style plans and 3D top view plans. If you have many structural options we recommend our 2D colored plans.

## RENDERINGS INTERIOR | EXTERIOR

We have many years of experience in the rendering industry. With roots rendering casinos, our attention to detail and backgrounds in architecture provide you with an unmatched quality of work.

## SITE PLANS SINGLE & MULTI-FAM

All of our site plans are designed with the intent to be used interactively. Our graphics can also be used for print materials as well! Whether you are showcasing your amenities or simply want to show sold lots in real-time, we have created a seamless software for you!

All of your assets are in one location for ease of use by home buyers. You can use or app as a standalone website, integrate into sales center devices and kiosks or embed into your existing website. Our IDApro cloud software has been proven to increase option sales through our exclusive inclusion of option prices and mortgage calculators. Your buyers can visually go through the options you offer and see what their monthly payments will cost. The following pages showcase everything you need to create an impactful, immersive and valuable sales tool for your sales agents and home buyers.

**No Setup Fees For Our Software.**

**Monthly Subscription Investment: \$495/mo per community**

## SALES CENTER

# FEATURES

- Included Set-up
- Software Updates
- Browser Updates
- Maintenance
- CRM Integration
- Pricing
- Mortgage Calculator
- Client Support

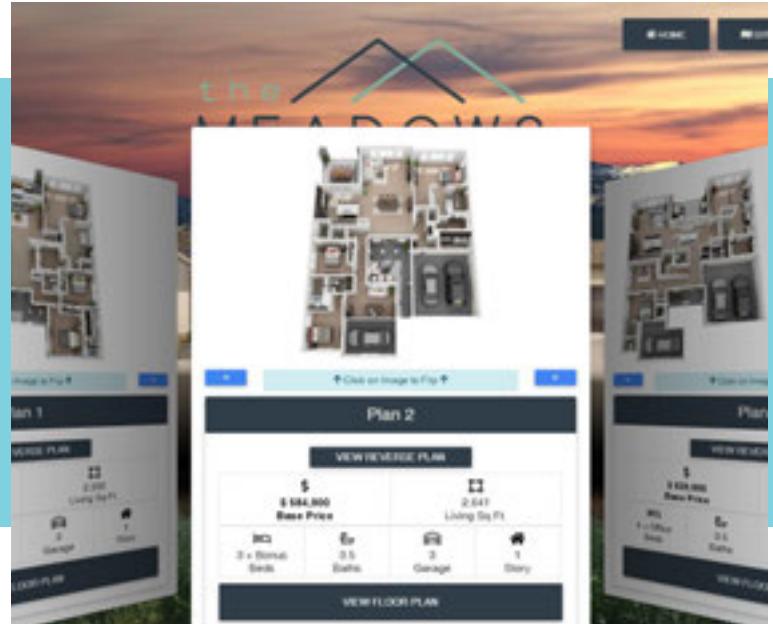

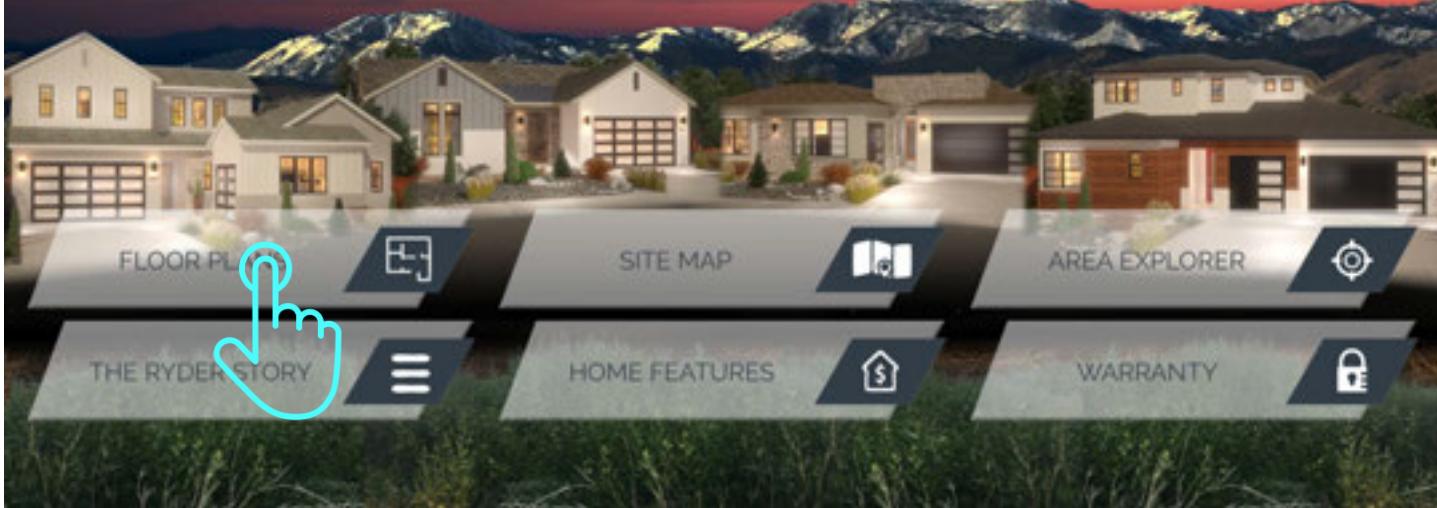

## Project Management INTEGRATION

Whether you use Builder Trend™ or any other project management software, our IDApro.cloud software can consolidate so that you manage all projects in one place. Meaning, any pricing, lot status, analytics or leads from your IDApro.cloud platform will automatically update to your existing CRM or pull from your CM management in real-time!

## PLAN FLIPPER

Our Plan Flipper allows prospects to scroll through all floor plan types for a quick visual of the individual unit details; click or tap for more information and to customize.

## CUSTOM SPLASH SCREEN

ABOVE: You can touch or click any of the buttons to interact. Our software is not a linear process, buyers can pick and choose which way they want to explore, choose their lot and save their designs.

## MULTI-TOUCH SPLASH SCREEN

BELOW: rotate the dial at the right to slide out image, videos, tours, etc. This Multi-touch interactive splash screen is a great tool to understand the overall project in the sales center.

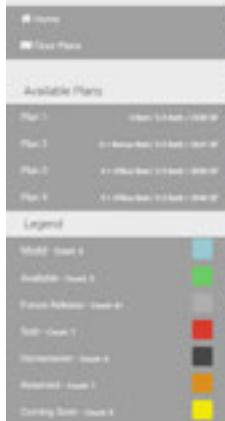

## AMENITY AREA EXPLORER

ABOVE: Our custom amenity map allows your buyers to look around the immediate area of your community to view what schools, parks, restaurants etc are in the area.

## INTERACTIVE BUILDING SECTION

BELOW: Do you have a bunch of building features that you include in you base price? Our Interactive Building Section app showcases all your features that makes you unique!

## INTERACTIVE SITE MAP

ABOVE: Our site map is fully responsive with a customizable Legend on the left side bar. You can click on each status to see a live view of status' on the map to the right. Quick change status' in real-time!

## SITE MAP LOT CARD

BELOW: Once a lot has been selected via the site map, a customizable lot card appears with all the vital information pertaining to said lot including: Fit List, 360 Lot Views, Plots maps and more..

# INTERACTIVE FLOOR PLAN

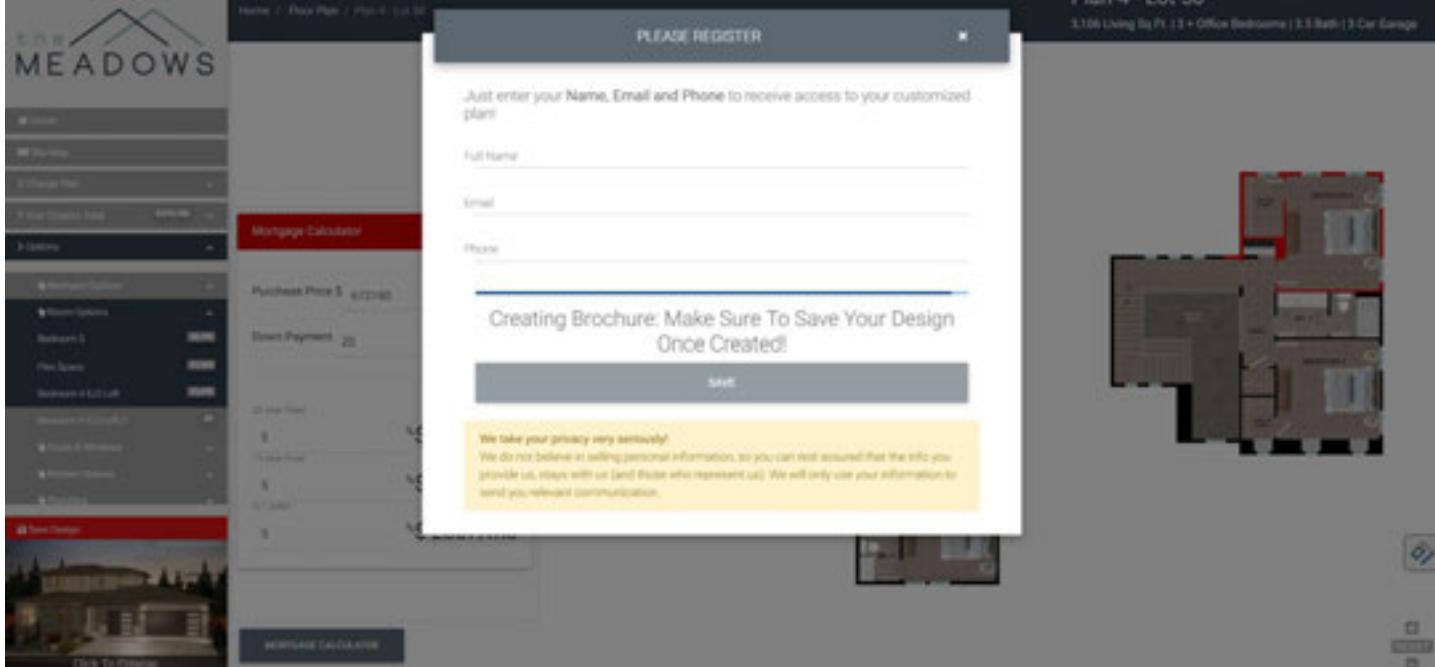

ABOVE: Our interactive floor plan page is very easy to navigate. The right side is the view window and the left side houses all of the available options with pricing. Our software allows you to easily make custom templates per lot!

# FLOOR PLAN

## GADGETS

**BELOW:** Add lender application forms, 3D virtual Tours, Galleries and more right to your interactive floor plan page with our Gadgets!

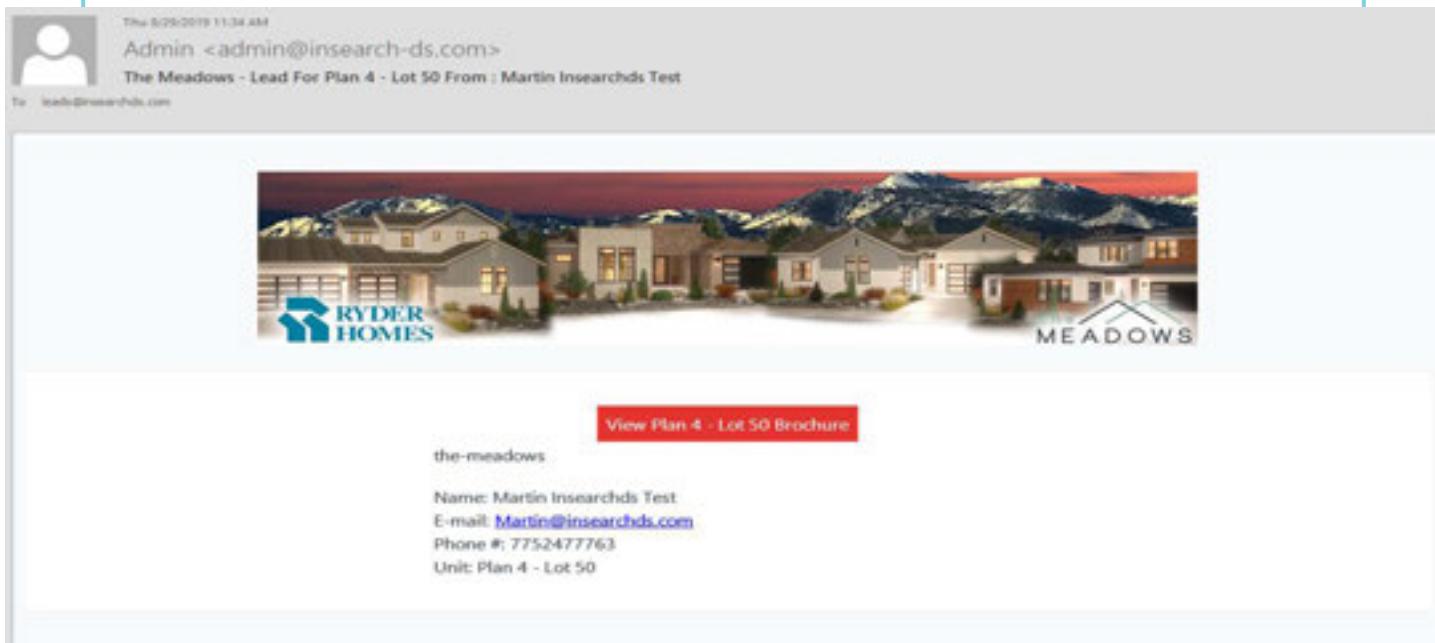

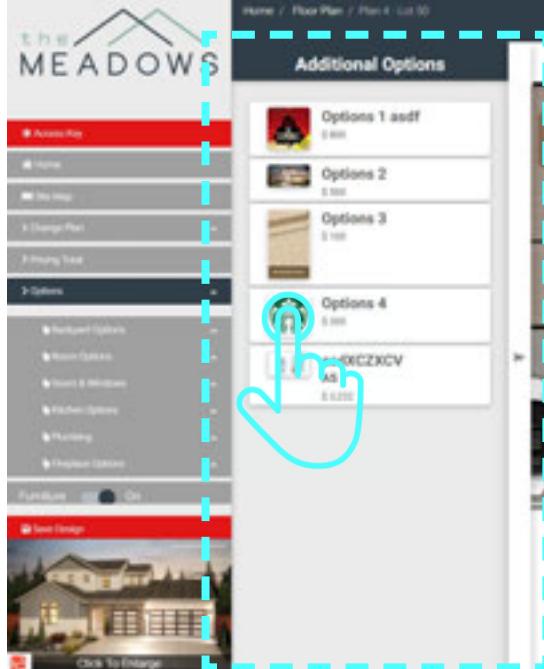

# CUSTOM BROCHURE

ABOVE: Buyers are able to save their designs they have created either at home or in your sales center. The brochure shows: elevation chosen, floor plan chosen with prices and current lot status.

# LEAD CAPTURE

**BELOW:** When your buyers save a brochure your sales team is automatically emailed a copy of the leads contact information and brochure they created. Our back-end houses all saved leads.

# OPTIONS ADDITIONAL

ABOVE: Our additional options slide out for your floor plan templates is a great way to showcase your smart home features. You can add images, descriptions and pricing to each additional option. You can even add web links to view right within our app!

# IDApro.cloud

## BACK-END

**BELOW:** Our Back-end login is rich with tools that you can do yourself! Here you can change lot status in real-time, change pricing, make floor plan templates for lots (great for spec homes!), view leads, view analytics and more!

## BACK-END CONTINUED

ABOVE: Communities list

## WEBSITE

- 72% of respondents turn to the Internet first when searching for an apartment.
- Watch Lifestyle Videos Of The Project
- See Availabilities
- Browse Units
- Send Favorite Plans To Your Phone Or Email

## UNIT FLIPPER

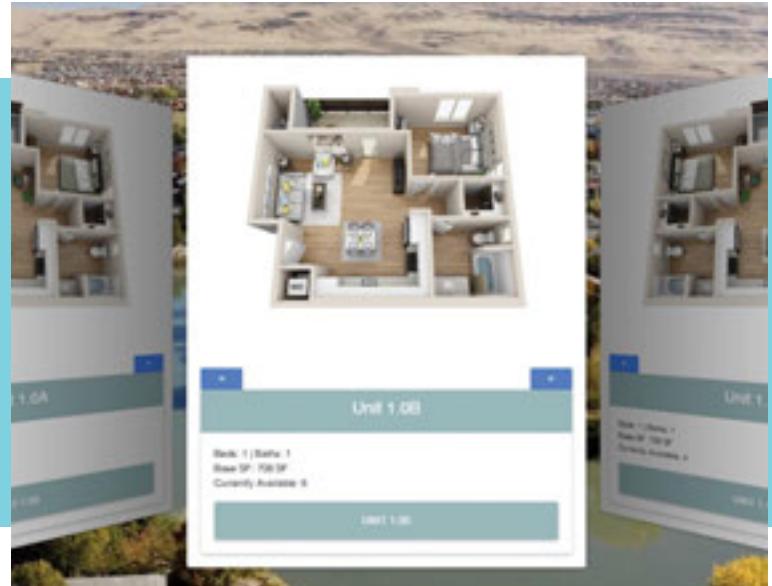

Our Unit Flipper allows prospects to scroll through all unit types for a quick visual of the individual unit details; click or tap for more information.

# Included FEATURES

- Send to email
- Send to phone
- Software Updates
- Maintenance
- Pay rent integration
- Create Work Order
- Apply for apartment
- Customer Support

## Project Management INTEGRATION

Whether you use Yardi™ or any other project management software, our IDApro.cloud software can consolidate so that you manage all projects in one place. Meaning, any pricing, unit status, analytics or leads from your IDApro.cloud platform will automatically update to your existing CRM or pull from your CM management in real-time!

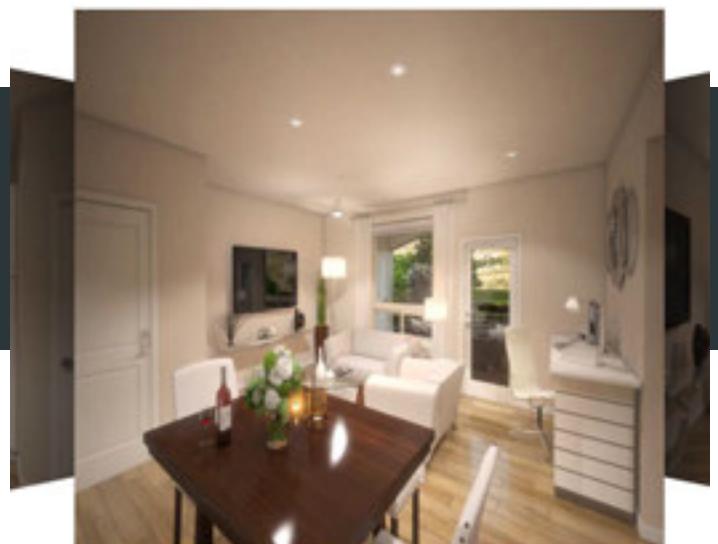

## CUSTOM SPLASH SCREEN

These interactive, swipeable tabs allow you to add as many as you need or want. These tabs will take you to different parts of the application. Need to show an external website? No problem, we can insert approved website into our App! Different themes available!

## Image GALLERIES

All of your images & renderings from the exterior to interior, and amenities to local attractions will be located in one tab under the Splash Screen. Galleries are also located within each unit plan throughout the App.

# Required GRAPHICS

3D floors plans are a show stopper and add great detail to your application. Accompanying the 3D plan is our 2D plan which shows a different perspective to the space while adding physical dimensions. Our site plan base graphics create a realistic appearance of what amenities you offer both on-site and within your building. With the base site created we save multiple levels of your building to create the illusion of height perspective.

## marketing

We provide Hi-res files of our graphics so you can use for all of your print materials!

The screenshot shows a user interface for an interactive site plan. At the top, there are tabs for 'FLOOR 1' and 'FLOOR 2'. Below this, a table lists 'Units' with their details:

Unit	Description
Unit 1.0A	1 Bed / 1 Bath / 708 SF
Unit 1.1A	1 Bed / 1 Bath / 708 SF
Unit 2.0A	2 Bed / 2 Bath / 1053 SF
Unit 2.1A	2 Bed / 2 Bath / 1067 SF
Unit 3.0A	3 Bed / 2 Bath / 1098 SF
Unit 3.1A	3 Bed / 2 Bath / 1127 SF

Below the table is a section titled 'Availability' with a 'Show' and 'Hide' toggle switch. The 'Occupied' status is marked with a red square. Other status options include '30 Days Out' (yellow square), '60 Days Out' (teal square), and '90 Days Out' (blue square). To the right of the interface is a 2D site plan showing buildings, roads, and various amenities like a dog park, pool, and clubhouse.

## INTERACTIVE SITE PLAN

From apartments to high-rise condos, our Interactive Site Plan has you covered. IDApro.cloud integrates with your project management software to create a real-time view into what availabilities you currently have, such as Occupied, Available, 30 Days Out, etc. Simply click on each unit to see the 3D & 2D floor plans, a virtual tour, various renderings & images and more. You can also filter by plan type and status.

## 3D AND 2D UNIT PLANS

Gain perspective with our unit floor plans. The 3D plans boast a true perspective of the spacial qualities of each unit. Our accompanying 2D plans with dimensions offer a secondary spacial relationship so nothing is assumed.

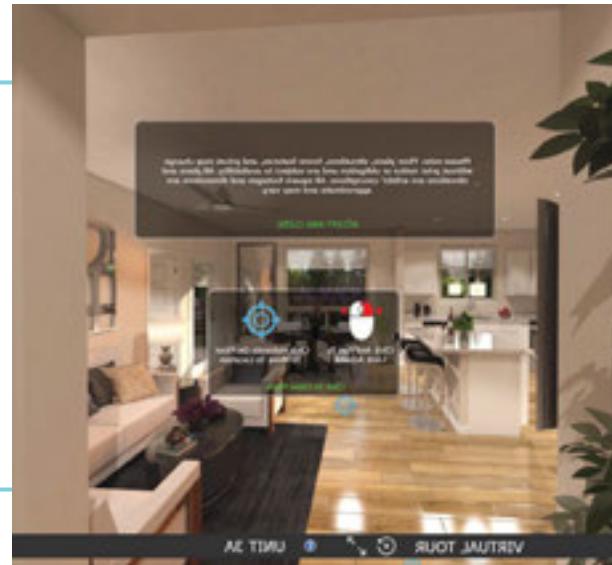

# Optional GRAPHICS

We highly recommend our optional graphics listed below. The main additions that will highly benefit the value of your application are the Virtual and Model Tours. Additional graphics that help your prospective lessee AND your existing Lessees is our custom Amenities Map. Our Amenities Map highlights the surround areas activities, shops restaurants and more.

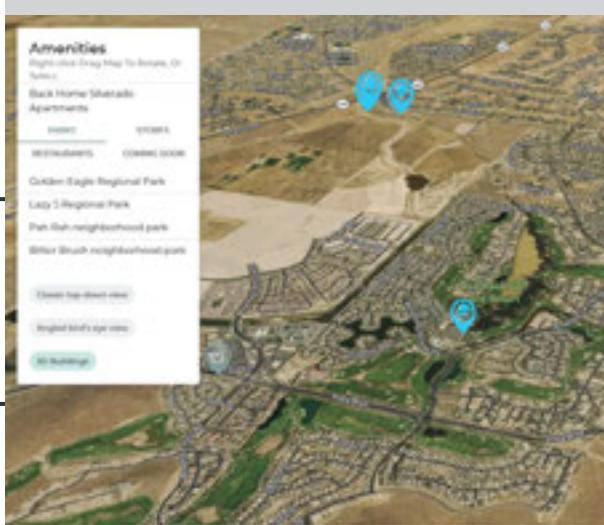

## 360 VIRTUAL UNIT TOURS

We 3D model your units and material to match your exact specifications for your project. We can even show the correct views out of the windows! You can sell your units straight from our virtual tour feature!

## 360 MODEL UNIT TOURS

We will come in and take 360 panoramic photographs of your model. You will have a web link that you can send to anyone to preview the model in a live internet experience. With our tours you can now lease your models out!

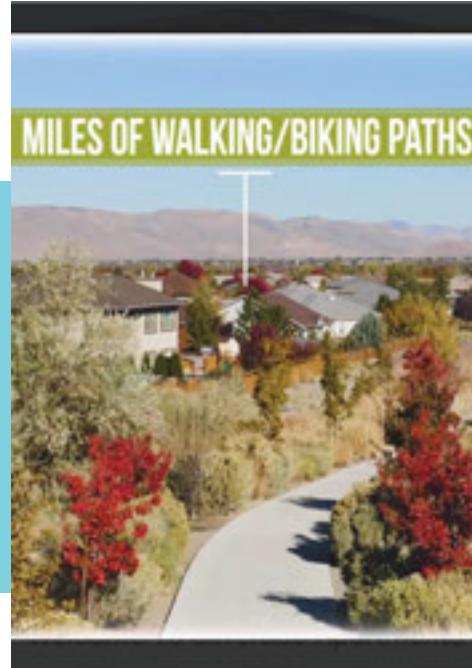

## LOCAL AMENITIES MAP

Our amenities map works for both tenants and prospective lessee. Our custom amenities map can show surrounding building in 3D! We can do immediate surrounding amenities all the way up to entire cities!

## AREA DRONE AND LIFESTYLE TOUR

Grab the browsing-buyers attention with our Drone and Lifestyle Tours. These quick tours will give your prospects an in-depth look into what you offer, as well as, what the surrounding area has to offer. From recreational activities to nightlife, we can showcase the selling points of your project and surrounding attractions!

## CUSTOM

We can also create custom applications! In some cases what you need may not even cost anything. Please let us know if you have any custom needs or wants!

# Example

## PROJECT SCOPE

Below and on the next page is a sample breakdown of a typical project. On the next page you will see a cost breakdown for the initial investment and the monthly investment per unit for the project.

In this example, touchscreen purchases are separate. Please see estimate for example touchscreen costs.
