MORE PROTECTION THAN EVER.

Bradford White is the **ONLY** company to feature Microban® antimicrobial technology in water heaters.

VITRAGLAS® SUPERIOR PROTECTION SINCE 1951 + MICROBAN®

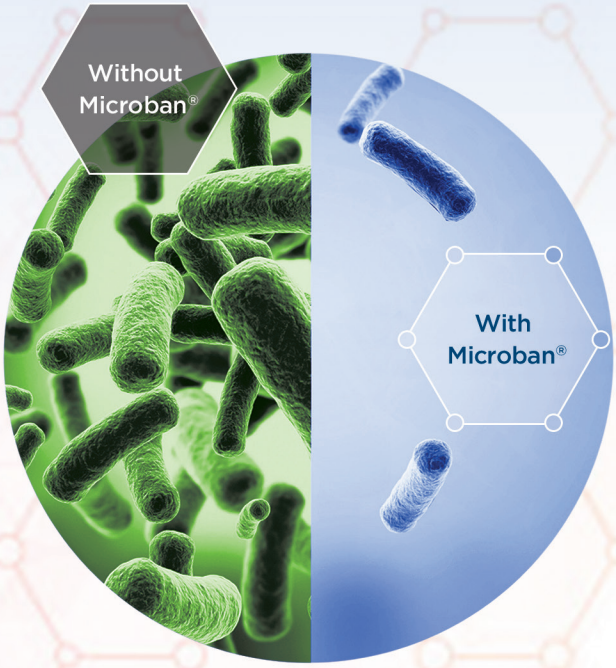

PROTECTS THE TANK.

Enamel tank lining that helps prevent corrosion and extend the life of the water heater.

KEEPS THE TANK CLEAN.

Antimicrobial product protection to help prevent the growth of bacteria, mold and mildew on the surface of the tank lining.

BRADFORD WHITE®
WATER HEATERS
Built to be the Best®

Vitraglas® and Microban® offer protection and peace of mind around-the-clock.

- **EFFECTIVE:** Vitraglas® tank lining prolongs the life of the water heater by protecting it from the corrosive effects of water. Microban® provides additional protection by helping to prevent the growth of bacteria, mold and mildew on the surface of the tank liner.

- **EXCLUSIVE:** Bradford White's unique formula for Vitraglas® is the ONLY tank lining in the industry to feature Microban® antimicrobial technology. This is included as a standard feature on nearly all tank-type water heaters from Bradford White, at no extra cost.

- **DURABLE:** The enamel tank lining and protective features are effective for the lifetime of our reliable water heaters.

- **PROVEN:** For more than three decades, Microban® antimicrobial technology has been infused into a wide range of appliances and plumbing products.
