Key Features

- **ENERGY STAR® certified:** Outstanding efficiency to lower your energy bills.
- **Environmentally friendly:** Low greenhouse gas (NOx) emissions exceed the most stringent regulations for air quality.
- **Durable & reliable:** Features a quality stainless steel heat exchanger for years of trouble-free operation.

Brute FT® Floor Standing Boilers (BFTHF)

- High condensing efficiency 95% AFUE
- ASME 30 psi (207 kPa) working pressure
- Large user interface and display
- Stainless steel fire-tube heat exchanger with welded construction
- Receptacle for condensate pump (2A max)
- Supply and return boiler sensors

Brute FT® Wall-Hung Boilers (BMFTHW)

- High condensing efficiency 95% AFUE
- Low pressure drop, fire tube heat exchanger design
- Pre-mix ceramic fiber burner
- Low NOx system exceeds the most stringent regulations for air quality – 17ppm NOx
- Vent with PVC, CPVC or Polypropolene
- Boiler pump wired and mounted inside jacket
