

Groundbreaking News!

HANCOCK PUBLIC LIBRARY

On Tuesday, September 26th of this year, ground was broken on the new future site of the Hancock Veteran's Library, currently known as the Hancock War Memorial Library. Dignitaries and community leaders gathered to begin the process that started around four years ago. Hancock's building has been plagued by water and mold issues for years. This beautiful new structure is scheduled to be completed around this time next year and will provide a healthy facility that will accommodate the newest technology and be a better fit for its community.

Congratulations Hancock!
