

Kudos!

TO: **SHARY GREEN, WCFL**

This past spring, Shary was working part time in the WCFL Tech. Processing Dept., doing a fine job, along with two excellent and very experienced full-time co-workers. Within a short period, one of these colleagues went out on extended medical leave, and the other retired, leaving Shary with a huge amount of work and not nearly enough hours in the day. She rose to the occasion and did an outstanding job keeping the department going: getting the most important things done, tracking and organizing the wide variety of things to be done later, and making good use of the temporary help available.

This summer, Shary was able to switch to full time, and has trained a new colleague in a wide variety of complex tasks. Thanks to Shary's talents, skills, and hard work, the department's service to staff throughout the library and thence to our customers, has continued smoothly during a very difficult transition. And she's even managed to hold on to her sense of humor!

Many thanks, Shary, for a job extremely well done.

Bill Taylor, Head of Technical Services, WCFL
