

# Getting to Know

## FAVORITE AUTHOR

Kim doesn't really have a particular favorite as she reads a variety of books; from historical fiction to mysteries to summer reads. Lately she's been reading quite a few children's books thanks to her little grandson Johnny who loves books.

## FUN ACTIVITY

Without a doubt her favorite activity is spending time with her family; her husband of almost 35 years, Allan, son Allan III and his wife Kathleen, grandson Johnny, who will become a big brother in October, and her son Matt. She loves curling up in front of the fire with a good book, especially on a snowy day and enjoys baking, skiing and venturing out to new places.

## FALL FAVORITES

With fall approaching she can't wait until the leaves begin to change. She loves brisk fall mornings, especially the time between Halloween and Thanksgiving. She finds that time to be the calm before the storm of the Christmas rush.

Her favorite fall recipes include any hearty soups, her pumpkin dip with gingersnaps, and any recipes with cranberries mixed in.

## FEATURED FACT

Kim and her husband moved to McHenry a year ago and they absolutely love being there. It has been a great adventure and they look forward to many more. Kim has published a children's book, "The Adventures of Hebear" based upon a story she told her sons when they were little guys and one day hopes to write another.
