Greetings Fresh Food Fans,

It's Moving Day! For the next month, our vendors will set up in the Bickford Pavilion at 1 Railroad Square just off Main Street across from Peachies.

This location should work well as we head into the fall because the structure is lit and covered with off street parking. After you turn into the RR Square driveway, drive past the pavilion and park in the lot on the left. Alternatively, you can continue to park in the Sacred Heart Church lot or on Main Street.

We decided to run the market for an extra month because both vendors and customers expressed interest in doing so. Produce vendors will still have plenty of fresh produce for the next month and many customers have told us they prefer to shop outdoors in the pandemic.

Extending the season is an experiment. Obviously, the temperature is falling and it's getting dark earlier. If customer continue to support the market, then we'll probably do it again next year. The long term goal for the market, BTW, is to run it year round, or at least 10 months of the year.

Winter markets work well in larger communities such as Portland, Brunswick and Bath. I can envision a sweet indoor winter market in Yarmouth with live music supplied by 317 Main, food truck, coffee and cocoa, maybe with kids activities? But I'm getting ahead of myself. That's probably a few years away.

We'll continue to have live music and food truck at the pavilion location. . **What we won't have are bathrooms or wifi.** Sorry about that.

Looking forward to seeing you this Thursday!

Amy
