

Dear Community Members:

The COVID situation has changed rapidly, and given the highly infectious nature of Omicron, we must respond quickly too.

The Therapeutic Care program will be on hold as of Monday, December 20th until further notice as a precaution in response to the threat of the COVID Omicron variant.

This means that all services including haircuts, massage, acupuncture, dental, and the Nada Ear Clinic will all be suspended until further notice. All pre-booked appointments will remain in the calendar on hold in the hopes that we can resume quickly. Once precautions are lifted you will be called if you have an upcoming appointment already booked.

Thank you for your flexibility and understanding as we all face these unique and challenging times.

Have a Safe Holiday Season and a Happy New Year!

Warm Regards,

---

Ian McKnight Director, Programs & Services
