**Event Overview:** The Alaska Water and Wastewater Agency Response Network (AKWARN) in coordination with the Alaska Water and Wastewater Management Association (AWWMA) is hosting a free U.S. EPA-sponsored tabletop exercise (TTX) event. The event, which can accommodate virtual participation, will include an AKWARN overview, as well as a TTX. The TTX will provide an opportunity for participants to discuss emergency response to a hypothetical incident affecting water and wastewater systems.

**What is AKWARN:** The purpose of AKWARN is to promote statewide emergency preparedness, disaster response, and mutual assistance for public and private water and wastewater utilities in the form of equipment, materials, and other associated services. Visit <https://awwma.com/akwarn/> for more information about the mutual aid network.

**Who Should Participate:** This event is open to representatives from all Alaska water and wastewater systems and their local and state response partners as an opportunity to discuss communication and coordination during an incident and to learn more about AKWARN and water sector mutual aid.

**Continuing Education Units (CEUs):** Approved for 0.4 CEU's for water and wastewater operators.
