WISE CONGREGATIONS for MENTAL HEALTH

You are invited to attend the UCC WISE Conference on Mental Health to be held at Jordan UCC, Allentown, PA on Saturday, May 16. It is offered by the UCC Mental Health Network and the Penn Northeast Conference of the UCC. While we know that 1 out of 5 people are directly affected by mental health challenges, we also know that we can be a resource in responding to these challenges.

We hope you will attend the UCC WISE (Welcoming, Inclusive, Supportive, Engaged) Mental Health Conference. At the conference, you will:

- Understand and address mental health concerns,
- Learn how your congregation can support your members living with mental health challenges and their families,
- Appreciate how to reduce the stigma that surrounds mental illness in our society, in our congregations and in ourselves.

Do not fear; for I have redeemed you;
I have called you by name,
you are mine." Isa. 43:1

Isaiah reminds us to live not in fear, but in the personal, renewing relationship with the loving presence of God. Affirming this faith, we meet to address a part of our experience which is sometimes painful and which also often leads to a deeper appreciation of the gift that we call life.

At the Conference, we will:

- Hear personal stories from persons affected by mental health challenges;
- Receive practical steps for a congregation to become WISE;
- Participate in 2 of the 7 enriching and educative workshops;
- Share with one another, meeting new people with a common interest; and
- Be encouraged to engage in a mental health ministry.

We are grateful to the United Church of Christ and the Penn Northeast Conference of the UCC, which have in part financially supported this day long conference, and the hospitality of the Jordan UCC.

Our hope is that this 7th UCC WISE Conference will continue to be a vanguard as we break the silence around mental illness, to be communities of hope to those who are left on the margins, and embody the welcome, inclusion, support and engagement as followers of Jesus.

We look forward to meeting you in Allentown!

Rev. Alan Johnson on behalf of the UCC, Mental Health Network

Rev. Dr. Bonnie Bates, Conference Minister of the UCC Penn Northeast Conference

WISE CONGREGATIONS for MENTAL HEALTH

WISE Workshops—1:00-2:00 pm

Addiction: Crisis and Call

Rev. Jack Abel and Rev. Erica Poellot

How can leaders and community members respond to substance use concerns within and around their context of ministry? This workshop is offered in response to mental health challenges involving substance use and misuse. Participants will come to understand substance use and acute use disorders as psychobiosocial experience frequently accompanied by trauma and struggle. Multiple pathways to healing exist. Harm reduction is one of those; recovery movements that emphasize total abstinence also contribute to the landscape of thoughtful response. We will consider how expansive and compassionate stances support an integrative approach that can engage and support people in all stages of change.

Historic Trauma and Mental Health in the LGBT People of Color FAITH Leadership Community

Bishop Allyson D. N. Abrams

Many acts of today's church has created "Faith on the margins" for LGBT leaders in the churches of today. The church and community must do an evaluation and gain insight on the impact of historic trauma on LGBT faith leaders created by the evangelical message. Racism, heterosexism, education, and privilege has impacted the black church leaders as well as the African American, Latin X, and other people of color faith communities. Mental health, discrimination, and being placed on a historic cross of trauma, leaves a person of faith marginalized. Wellness in the church cannot come until we deal with these issues.

Hispanic/Latinx Mental Health Challenges

Jon Gilbert Martinez

A brief introduction to the various challenges such as education, access to healthcare, citizenship status or lack of, beliefs, and language barriers that the Hispanic/Latinx Community faces when dealing with mental health.

What Helps You When a Loved One is Living with a Mental Illness, and Starting a Mental Health Spiritual Support Group

Rev. Alan Johnson

This workshop will engage participants in ways that we can understand, relate, and deal with the experiences that we have when a loved one is living with a mental health challenge. Many of us are impacted by the mental illness of our loved one. We need understanding and information, to learn about resources, find support, practice ways to take care of ourselves, and how to sort through the varied emotions which arise such as confusion, helplessness, support, and hope. One resource which will be offered is how to start a spiritual support group for mental health in your congregation.

"Take your Candle, Run to the Darkness" The Impact of Childhood Trauma and the Mitigating Role of the Local Church

Dr. Vicki K. Harvey

This workshop will explore the depth of the break in trust and identity when trauma hits children in the heart of their innocence. We will examine ways in which the church can become a new womb, surrounding the child and their also-traumatized circle (parents, teachers, siblings, caregivers) with practical and spiritual support. The goal is to experience a stable and loving space to rest, grow, and eventually find a way forward.

Meeting the Needs of Veterans as the United Church of Christ

Rev. Megan Snell and CPT Nicole Battaglia

In this workshop we will explore how congregations can address the needs of veterans (of all ages/ demographics) in our communities, particularly as it may relate to veterans with mental health conditions. We will hear about the concerns and experiences of veterans and some of the ways congregations can rise up to be supportive and engaged.

Suicide: Prevention, Intervention, Postvention

Rev. Dr. Rachael Keefe

This workshop will examine the role congregations can play in suicide prevention, intervention, and postvention. We will discuss all aspects of suicide including signs and symptoms of a person who is at risk, how to respond to someone who may be suicidal, and how a congregation can respond after suicide. We will also look at some of the theological questions and common beliefs around suicide.

Workshops Repeat: 2:15–3:15 pm

Conference Musician—Rev. Kirk Moore

Rev. Kirk Moore, Conference Music Director for our WISE conference, is a therapeutic musician, playing live therapeutic music at the bedside to help create a healing environment. Kirk is the pastor of St. Paul's UCC in Downers Grove, IL and a member of the UCC Mental
