Not-Your-Average Boundaries Training is tailored to focus on strategies to foster clergy emotional resiliency and well-being. While we still cover the "requirements," we believe the best prevention involves encouraging leaders to take steps to manage their stress in order to maintain balance and perspective when temptation to violate boundaries arises. This live online boundaries training is 5 total hours split over 2 consecutive days (2.5 hours each day). Following the first session, participants are asked to engage in a bit of reflection work in preparation for the second session. This online boundaries training will be conducted via secure Zoom video conferencing.

**Workshop: Ministering to Those Impacted by Suicide** - The word suicide is scary for some, heart-wrenching for others and all too familiar for too many. It is estimated that 50% of individuals in any congregation have been impacted by suicide in some way. Many in ministry feel in over their heads when called upon to respond to any suicide-related crisis, whether acute or chronic. This training will take a deep dive into the topic; it will increase awareness of the impacts of suicide, teach practical tools for responding appropriately and sufficiently in times of suicidal need, and expand the thinking of leaders about how churches and organizations can proactively address the hopelessness and isolation that contribute to suicidality.
