## September update on Rev. Alan Miller

September 18 - Alan had a busy day at Duke Hospital. His CT scan results revealed a large amount of fluid in his right lung. He will have a thoracentesis (removing fluid from his lung) on Monday, 9/24. He has been complaining of shortness of breath for a few weeks. They will test the fluid for cancer cells.

Alan's encephalitis is improving ever so slightly. He can not remember the last 20 years. As always, he still remembers people. Dr. Vashnavi, Neuropsychologist, started him on Namenda for his memory. He has a hard time with short term memory at times. I will update when we get results. Again, thank you for keeping him in your thoughts and prayers.

Peace, Candy Miller

If you would like to send Alan and Candy a card, their address is: 4080 Saint Johns Street, Highpoint, NC 27265
