

Solstice Soul Renewal

SoulCollage® Retreat - Breitenbush Hot Springs June 11-14, 2017

with Glenda Goodrich and Ann Christensen

What is your soul longing for? Let the magic of SoulCollage® deepen the relationship with your longing and knowing. Unleash your creative spirit as you play in the pure joy of creating personal collages using imagery. Expand your awareness through journaling, meditation, sound, labyrinth and time in nature. Solstice is a perfect time for rekindling the fullness of YOU.

SoulCollage® experience is not necessary. GG and Ann will guide you in this soul-nurturing process that you can continue with on your own.

In the peaceful setting of Breitenbush, this retreat offers the perfect combination of exploring the soul through the magical imagery of SoulCollage® and time for rest and renewal in nature. For those who have not yet been to Breitenbush, you have a delightful experience awaiting you. For those who have been there, you know how the sacred grounds, nourishing food, abundant wildlife, and soaking in the natural springs can bring life into balance.

Our days together will include basic instruction in the techniques of card making, discussion on the gifts of SoulCollage®, and the many ways your cards can be used for soul affirmation and guidance. There is ample time for card making and card reading, along with meditation, journaling, personal reflection, labyrinth and trail walking, connecting with one another in community, and rituals to honor the Summer Solstice.

You are invited to bring your drums and rattles, something for the community altar, any poems or readings to share, and anything else that helps deepen your experience. All card making supplies will be provided.

Our intention for this retreat is for you to leave feeling revitalized and reconnected to your juicy and soulful selves. We are filled with joyful anticipation and look forward to welcoming you.

Glenda Goodrich “GG” is a mixed media artist, writer, teacher, SoulCollage® facilitator, and devoted practitioner of the ceremony of the vision quest. She uses a soulful grounded approach, along with an open heart, to guide others in realigning with their inherent creative nature.
