The second session of the SW Small Church Clarity process met on September 30 at Royal Redeemer Lutheran Church in Liberty Township, Ohio. There were 7 churches represented and about 40 people in attendance. At this session, the participating churches continued to polish their Guiding Statement. They also began talking about current ministries and future opportunities and used these to begin developing a Ministry Plan of everything people can participate in.

Along with continued work on their ministry plan, each congregation will be conducting interviews with members - especially newer ones as well as recent visitors to find out more about their experiences and overall view of the current ministries including their worship experience.

Congregations will also be interviewing people from their neighborhoods to see what they know about their church. This information will help them develop a future communication plan and also lead continued development of their ministry plan.
