DivorceCare Divorce Recovery Seminar and Support Group

The breakdown of what was supposed to be a life-long relationship can cause intense emotional and practical impacts on the lives of all involved. It is normal to feel sadness, hurt, anger, uncertainty, fear, grief, and many other emotions when a marriage ends or separation occurs. No one needs to go through this difficult time alone. Meeting with others who are experiencing these feelings and changes firsthand, and hearing from people experienced in helping others through these challenges can help. DivorceCare is a 13-session seminar and support group for those walking this difficult path.

A special, one-session seminar on "Surviving the Holidays" after a separation or divorce will also be offered on November 8, 2026 at 3:00 PM and November 19, 2026 at 7:00 PM. Holidays can be difficult after the end of a relationship. How do you deal with family? Friends? Work parties? Surviving the Holidays can provide helpful guidance for these and other situations.
