

4C Comics, in association with The Artist Choice, is honored to be bringing one of the greatest creators of this generation to HeroesCon 2022, John Romita Jr.

JRJR has a career that spans decades starting in the 70s and continues to this day with the announcement from Marvel Comics that Romita Jr will be doing the pencils for the reboot of **Amazing Spider-man** in April starting with Issue 1-6 as a weekly book. Bringing Romita, the co-creator of the Hobgoblin, back to the ASM franchise has the comic collecting industry buzzing like we haven't seen in a long time!

The **Amazing Spider-man issue #1** will hit shelves on April 6th and the first 6 issues will be released before the Heroes Convention. This will give HeroesCon attendees the ability to collect the entire run to get signed by Romita Jr.

There will be signings and possible sketch options available at the **4C Comics booth**, as well as a very limited opportunity for a handful of collectors to have an intimate sit down with JRJR.

Prices as follows:
