WHO SHOULD COME TO A UMA GATHERING?

Do you support makers and manufacturers? Then yes! You could work in municipal government, faith-based networks, workforce development, entrepreneurial services, academic institutions, lenders, real estate or affordable housing development, retail, makerspaces, commercial kitchens, or any organization that contributes to the manufacturing ecosystem. Making and manufacturing businesses are also encouraged to attend.

WHAT ARE UMA GATHERINGS LIKE?

Gatherings are interactive events driven by you. We will lift up the work of Houston-based practitioners and businesses, and our national network of manufacturing practitioners – while giving you the opportunity to connect and learn from each other.
