TRAIL CAMERA**

IMPORTANT MESSAGE FROM THE BOSS...

London, Caspian, our "next generation" pups and I as well as my team wish you all the best.

Of course I am the master of understanding Doberman speak so take my word, we all want you guys to stay healthy.

You probably already know what I am about to announce. I have been on the line for weeks now and finally decided it best we look to **2021 for our next Dobe Fest**. I want you all to know in the world of Hoytt, our clients have kept us up on life in today's America.

Over all 'the family' has been very fortunate and venturing out for social reasons could go against us all.

Know the final help in the evaluation came when our pavilion as well as the park in general including the county limited groups to eight. Since I have enjoyed a great year here at Camp Hoytt I would like to think so far those in our communication program also have stayed safe and our Dobs added an emotional comfort to our personal "Island in the Sun".

So guys be as safe as you can and do plan on our October 2021 gathering. For sure as long as I don't try one more of those extreme motorcycle trips I'm known for, I'll be there too.

God Bless, Mr. H and the gang
