This is how we do it...

Socializing Your Dog

...refers to providing him with POSITIVE experiences with NEW THINGS. The best way to make sure your dog has great experiences is to include things he loves (like food or toys)

new people

Let your dog approach **at his own pace**, if and when he wants to.

other animals

Always check that the other animal is friendly & tolerant of dogs before you let your dog approach.

new things & environments

To prevent **noise phobia** (eg, fear of thunder), feed your dog a tiny treat every time the noise happens.

Visit parking lots and other busy places just to watch the people, animals, vehicles, etc. and feed your dog treats.

Remember: **EXPOSURE alone isn't socialization!**

If your dog isn't having a great time, you could do more harm than good. Dogs don't just "get over" issues by themselves, so if your dog is shy, worried, or overly excited, leave the situation and work with a professional who can help both of you. If your dog is having a blast and is happy and comfortable, you're doing a great job of socializing him!
