

DAN WOLZ CLEAN WATER EDUCATION GRANT RUBRIC

CRITERIA	UNSATISFACTORY (0-9 PTS.)	BASIC (10-14 PTS.)	AVERAGE (15-19 PTS.)	ABOVE AVERAGE (20-25 PTS.)	DISTINGUISHED (26-30 PTS.)
PROJECT DESCRIPTION	Project not clearly defined	Project description is marginal	Adequate project description	Proficient project description	Superior description of project
CONNECTION TO MICHIGAN SCIENCE STANDARDS	No connection to Michigan Science Standards	Marginal reference to Michigan Science Standards	Adequate reference to Michigan Science Standards	Reference to Michigan Science Standards is proficient	Detailed connection to Michigan Science Standards
DISSEMINATION PLAN	Does not articulate a dissemination plan	Marginal evidence of dissemination plan	Adequate evidence of dissemination plan	Proficient evidence of dissemination plan	Detailed dissemination plan
SUSTAINABILITY	No evidence of sustainability	Marginal evidence of sustainability	Adequate evidence of sustainability	Evidence of sustainability is proficient	Detailed evidence of sustainability
LINKS TO GRANT GOALS & RESULTS	Application does not have a link to the stated goal and intended results of the grant	Poor attempt to link to the stated goal and intended results of the grant	Adequate attempt to link to the stated goal or intended results of the grant	Application is linked to the stated goal and intended results of the grant	Distinguished link to the stated goal and intended results of the grant

The goal is to enable Michigan teachers to be aware and promote careers in water environment, water quality, and wastewater management not only to their students but also to the science community.

The results we are seeking would be students throughout Michigan who will have a much greater awareness and appreciation of the contribution this great industry makes to our society and maybe even become inspired to choose a career path that would make them a part of that contribution.
