# **EMERGENCY MANAGEMENT AGENCY**

## **MISSION STATEMENT**

The mission of the Mokena Emergency Management Agency is to provide for the safety of the general public residing and working in the Village of Mokena from the hazards of emergencies and disasters. This is accomplished through the provision and coordination of a wide variety of services focused on the prevention of, preparedness for, response to, and recovery from emergencies and disasters caused by nature or man.

The Mokena Emergency Management Agency accomplishes its mission by providing unique and supplemental emergency services directly to the public and in support of other public safety agencies; and by fostering and coordinating the emergency management efforts of other Village departments, service districts, higher levels of government, civic organizations, the business community, and the citizens of Mokena.

The Mokena Emergency Management Agency carries out its mission through the efforts of its all-volunteer officers and members. They work together and with other Village departments in a spirit of teamwork to insure that the overall mission of the Village of Mokena is accomplished.
