

The United State Census Bureau is recruiting for census takers, supervisors and office staff in your area currently.

The 2020 census is extremely important to your community because billions of dollars of federal aid is distributed to the cities and towns based on the responses provided in the census survey. Funding for schools, new roads, food pantries, job services, homeless shelters and head start programs are some of the things the census has a major impact on.

The jobs are important temporary excellent paying jobs that can be done by anyone 18 years or older, a senior, stay at home parents or even as a second job to supplement your income.

You can find out the pay rate for your county by going to 2020census.gov/jobs and locate pay rates in the information about the census. You simply enter your county and the hourly rate will be provided.

Job qualifications

- 18 years of age
- US Citizen
- Access to a car
- Access to a computer
- For males born after 1960 you need to have your selective service number when you apply. (This can be located on the website [Sss.gov](https://sss.gov))

Benefits of working for the census.

- You make up your own schedule. (You will need to work some evenings and weekends)
- Work in your own neighborhood
- Paid training
- Excellent pay
- No need to give up your other job to work the census
- Excellent first job for students (looks great on your resume)
- You are helping your own community.
