

2021 Prostate Cancer Screenings

Get a PSA blood test to measure your risk for prostate cancer.

- You must be between 45-75 and never had prostate cancer.
- You must not have had a PSA (prostate specific antigen) blood test in the last 12 months.
- Interpreters are available free of charge.
- Social distancing and COVID-19 safety measures will be practiced according to CDC guidelines.

To schedule an appointment, please call 404-531-4444.
