

# SAVE THE DATE

“This is the biggest public health discovery we’ve ever seen.”

– Laura Porter, Co-Founder, ACE Interface

**Join the Georgia Center for Child Advocacy Prevention Team**

**THURSDAY JUNE 18, 2020**

**10:00am - 11:30am**

**for a Virtual Screening of**

**RESILIENCE: THE BIOLOGY OF STRESS AND THE SCIENCE OF HOPE**

a film chronicling the promising beginnings of a national movement to prevent childhood trauma, treat Toxic Stress, and greatly improve the health of future generations.

Following the film we will present information on **Connections Matter Georgia**, our new initiative in partnership with Prevent Child Abuse GA, designed to engage community members in building caring connections to improve resiliency, prevent childhood trauma, and understand how our interactions can mitigate the impact of ACEs. [Learn how you can bring this training to your community!](#)
