

Dawson County Adult Education Center of Lanier Technical College is enrolling new GED students for the Spring 2019 Semester throughout the month of January. Call 678-513-5205 to schedule an intake appointment; or email Sharon Clark, sclark@laniertech.edu

We offer morning, evening, and online study options, and students can qualify for a fee-assistance scholarship to cover the cost of the GED test. Our intake test and classes are free of charge. Students may also qualify for a WIOA grant, which will help them transition into the workforce with a college diploma or certification in a high-demand job skill.
