FACULTY DEVELOPMENT
POCUS-SONO SIMULATION

WEDNESDAY, MAY 12, 2021
MSU MANAGEMENT EDUCATION CENTER, TROY, MI

AGENDA

AM SESSION GROUP 1:
8:30-9:00am
Registration & E-Sign In
~ Turn in MEC Health screen form
~ Face mask and shield required (will be provided)
~ Snacks provided

9:00-12:00pm
Ultrasound Module Reviews & Hands-On Simulation

PM SESSION GROUP 2:
12:30-1:00pm
Registration & E-Sign In
~ Turn in MEC Health screen form
~ Face mask and shield required (will be provided)
~ Snacks provided

1:00-4:00pm
Ultrasound Module Reviews & Hands-On Simulation

Presenter/Facilitator: Dr. Ben Collins-Hamel, D.O., APD Ascension Macomb-Oakland

An intro to Point-of-Care Ultrasound (POCUS); intro to Cardiac and Pulmonary POCUS, including a review of ultrasound imaging and probe handling. Hands-on simulation session will follow to review basic and core clinical, cardiac/pulmonary case modules.

Learners will practice hands-on scanning using the hand motion-sensing SonoSim Probe that plugs into the USB port of a laptop, thus replicating the exact tactile experience of using an actual ultrasound probe to scan a real patient.
