## AFO Scholars Reception **honoring AFO's scholarship recipients**

Monday, May 16 from 5-6:30pm, Hacker Architects

AFO's Senator Mark O. Hatfield Architectural Award was established in 1998 to annually recognize Oregon architecture students for their design promise and community service. Since 1998, AFO has awarded 27 scholarships to exceptional students, many of whom now practice in the Northwest and around the world.

The William Hart Scholarship was established in 2021 in partnership with Carleton Hart Architecture. Throughout his career, Hart has significantly contributed to community-oriented projects that are sensitive to historically under-represented stakeholders, including multiple affordable housing developments and community centers across the Portland-Metro Area and SW Washington. This scholarship aims to build on that work by awarding to eligible students of color.

### **Become a Part of the Solution**

The 2022 Scholars Reception is an excellent opportunity for firms to be on the forefront of growing AFO's annual monetary award. By funding under-represented students' education, helping them stay in school and avoid debt, scholarships are one of the most direct ways to support equity in the architecture, engineering, and construction (AEC) community. By

supporting the AFO Scholarship fund, you invest in creating a more diverse and talented pool of candidates in the Oregon AEC industry for years to come.

The goals of this reception are

- to increase the visibility of this scholarship program,
- institute a higher annual monetary award,
- provide networking opportunities for scholarship recipients and finalists,
- and provide inspiring stories of how industry leaders are contributing to the community.
