

LIVE WORSHIP INFORMATION

FACE COVERINGS

Due to the recent COVID19 updates for Allegheny County face coverings will be required upon entrance and throughout the entire service and exit. We are all so thankful to have the opportunity to worship together this Sunday. Please accept the situation we are in and be patient. The ushers will be there to assist you and seat you according to the recommended safety guidelines. Please refrain from hugging. Thank you for your understanding.

SEATING BY USHERS

1. The seating method is set up so that no group is seated in the pew right in front of you or in the same pew at the other end.
2. Smaller groups up front, larger groups towards the back.
3. If there is six feet between the closest people between two groups, appropriate physical distancing is being maintained. (If a person from one group can reach out his/her arm and a person from another group outstretches their arm, there should be one foot between the ends of their fingers. They would be maintaining 6 foot social distancing since the average adult arm is 2.5 feet)
