

Leak Shield leverages smart devices, real time ultrasonic pressure monitoring and automation to predict and detect water issues providing timely and appropriate intervention.

18% of homes will have a water leak this year.

10,000 gallons. That's the amount of water each home will likely leak over a year. With Leak Shield, you can guard against water leaks and water damage to your home and adjacent property. Our technology, featuring ultrasonic pressure sensors and advanced AI, actively monitors your water usage 24/7 from a local response center staffed by professionals, detecting leaks from a single drip to catastrophic bursts.

Active Monitoring

Leak Detection

Automatic Shut-Off

Key Benefits:

- Real-time leak detection actively monitored by live agents
- Entire asset monitored from local, staffed response center
- Monitors pressure and flow 240 times per second
- Detects toilet flapper, supply line leaks, catastrophic damage
- Remotely shut-off water main in real time
- Automatically shut-off water main during catastrophic event
- Daily plumbing check-up to insure a water-tight property
- Save up to 10% on your water bill
- Potentially reduce insurance premiums by 15%*

Instant Alerts

Water Usage

Sub-Metering

Equipment Proposal

Equipment:

Smart Water Valve + Shutoff

High-definition pressure wave monitor valve with automatic, manual and remote shutoff capability.

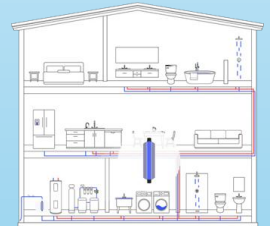

Smart Water Sensor

Water detection sensor with audible, visual and remote alert capability. (Additional sensors may be required)

Installation:

Licensed plumbing contractor to install valve and detection devices. Licensed electrical contractor to install power source if necessary.

Programming:

Setup and programming of valve, toilets, showers, sinks, appliances, water heaters, ACs, other at-risk fixtures and areas.

Monitoring:

Leak Shield will actively monitor installed devices 24/7 allowing agents to identify potential threats and irregularities in real time.

Leak Shield is your all-in-one solution for complete water protection. Don't wait for a disaster—act now to safeguard your property.
