

Why Attend

Attendees will leave this event excited about the important work that they do, and with more knowledge about brain injury rehabilitation. We have a wonderful lineup of industry experts who are prepared to enhance attendees' understanding on a variety of topics geared toward professionals in healthcare, rehabilitation, and other health related service industries.

Learning Outcomes

- At the conclusion of this program, participants will be able to identify:
- Methods of rehabilitation for obtainment and maintenance of productive activity for individuals with neurologic injury.
 - Causes and consequences of unhelpful thinking patterns often experienced in the context of recovery from brain injury, as well as potentially useful strategies for managing symptoms and experiences.
 - Strategies that can improve outcomes and the delivery of care across the continuum of care.

Who Should Attend

Interdisciplinary professionals interested in the field of brain injury including, but not limited to, physical therapists, occupational therapists, speech-language pathologists, nurses, social workers, psychologists, vocational counselors, recreational therapists, case managers, discharge planners, and healthcare students.

Registration

Course tuition is refundable, minus a \$10 processing fee, if your cancellation is received in writing no later than April 17, 2020.

Please call 517-455-0278, or email info@origamirehab.org with any questions or for auxiliary aids or services with regard to needed accommodations.

Unless otherwise requested, contact information may be shared with vendors.

Register Online Here:

www.OrigamiRehab.org/Symposium2020

ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

14th Brain Injury Symposium of Mid-Michigan

Wednesday, April 29, 2020

Eagle Eye Golf & Banquet Center
15500 Chandler Rd. Bath Twp., MI 48808

Keynote Speaker

DR. RANY ABURASHED, DO

Dr. Aburashed provides a wide range of neurology services and is also a partner in Multiple Sclerosis Care from the Michigan Chapter of the National Multiple Sclerosis Society. Dr. Aburashed serves as Chief of Neurology and the Director of Multiple Sclerosis at the Memorial Institute for Neuroscience. He speaks on a national level about Multiple

Sclerosis and feels strongly about having access to the most comprehensive care available for his MS patients. He has extensive experience with all treatment modalities and immunomodulating/immunosuppressive agents. Dr. Aburashed is an Assistant Professor at Michigan State University, where he educates neurology residents and medical students.
