SI Objectives Committee Meeting Minutes; April 26, 2022

Linda Allen's House 3943 Barbados Court, Chico

*Note: This will be our final official committee meeting of the year. We will communicate informally via email as needed for the last bits and pieces of our committee work. If each person would please send me a short write up of your area of responsibility for our committee year end report, I would be grateful. I will compile the submissions and get it turned in. It is also useful for next year's committee. Thanks gals!!

Jami McNamee: Sunshine: we had a long discussion about sunshine. First, everyone was very grateful to Jami and complimentary for a job really well done. Moving forward, with a limited budget, it was decided we would allocate a specific amount of SI Objectives funds to sunshine ($200 suggested). The sunshine person would generally send just cards in most cases, but in an instance (at the sunshine person discretion) where the issue is heavier, more serious, this budget can be used for purchase of flowers or a small plant etc…The group called this "extra sunshine".

1. Area reports
2. Other business:
   There were several good ideas discussed- perhaps in December our Adopt-a-family could be one of our live your dream recipients families! Lois has a number of magnetic photo sleeves left that were unused from DIBI- could be used a speaker gifts next year since we have already purchased them. Also, Lois told us about a neat project called Fix My Ride that she used to participate in with another group where they had local mechanics volunteer their time to help do repairs on cars for women in need of this service. This would be a great President's Project!!

   Finally, if you would like reimbursement form DIBI SUDS contribution, Val needs to hear from you.
