

MTM-EasyTime

MTM Productivity Services Corporation & Manufacturing Skills Institute have partnered to bring the first cloud-based software to calculate MTM reference times.

Simply.
Quickly.
Reliably.

MTM - Time to Win

Tie your Lean metrics to individual employees for accountability and measuring standard times.

Knowing what your production department can really achieve!

Low unit costs, safeguarding delivery capacity, being well ahead of the competition?

If you want to know what your production department can really achieve, then ensure that processes are transparent and calculate reference times using MTM-EasyTime – simply, quickly, reliably and at an affordable price.

With MTM-EasyTime

- Create transparency
- Calculate products & prices
- Reduce unit costs
- Plan human resources needs
- Safeguard delivery capacity and therefore guarantee that you remain competitive

MTM Reference Time = the time required for the work system to complete a task.

How You Can Benefit

- Mobile calculations on the shopfloor or using an item list on your desktop
- A cloud-based IT solution, i.e. no special software needs to be installed
- Data can be reused at any time
- A direct presentation of potential
- A decision-making tool to improve the organizational structure
- Professional advice on realization

"I don't know any comparable tool!"

"These are huge savings - inconceivable!"

"Reference times quickly point out where to make changes."
