

Tuesday, Wednesday & Thursday ● 9:00AM-4:00PM ● Lunch Included ● \$75/session
 All camps meet at Madison College Truax Campus, 1701 Wright Street, Madison WI 53704

June 18-20

Leading Behind the Scenes—Ages 11-17
 Want to develop your leadership capacity? Learn skills that can help you succeed in any career path. Participate in fun team building activities. Explore the latest in new business technologies, business intelligence, and Artificial Intelligence (AI). Today's administrative professionals must be equipped to lead—working many fronts to build, improve, and sustain a culture of improved achievement. Explore careers that are the force behind business that gets done.

Next Gen Storyteller—Ages 12-15
 Curious about life? Love to write and create media? Explore leading-edge careers and the use of new media in journalism. Learn storytelling techniques in state-of-the-art media technology labs. Get your voice heard through video storytelling, podcasting, social media journalism, and on-air broadcasting via the mobile broadcast studio.

Emergency Medicine—Ages 13-17
 Take part in simulated emergencies and learn how to respond to emergencies and response plans. This session will include hands-on activities related to emergency response, public safety, health care, and respiratory therapy.

Biotechnology—Ages 11-15
 Explore stem cell technologies and regenerative medicine in a state-of-the-art Biotechnology Lab. Utilize hands-on experiences that pave the way for STEM careers in bioenergy production, agricultural biosciences, biomedical & molecular biology research and development.

Welding & Metal Fab—Ages 11-17
 Create a variety of customized projects from scratch using both hand welding and metal fabrication techniques to complete your projects. Draw digital mock ups of your custom designs in 3D Solidworks.

June 25-27

Bus available for this week's sessions from Reedsburg/Baraboo/Portage!
Design your Dream—Ages 11-17
 Find your inspiration! Change the world! Explore creative design and entrepreneurship through hands-on activities. Stretch your flexible thinking while learning the business strategies to move your idea forward. Explore creative careers such as interior design and fashion. Learn how creative work promotes positive change in the world through social, economic and environmental impact. Create, make a difference in the world, and be your own boss.

Girls Only (GO) STEM—ages 11-14 New!
 Dive into the exciting world of STEM (science, technology, engineering, and math). Learn about environmental and food science in a farm setting. Work cooperatively to build a bridge; and build your confidence. Explore the basics of 3D printing by designing and creating cool stuff, from jewelry to Pokémon. You'll discover how you can make an impact on your community (or the world!) with a STEM career.

Law & Order—Ages 12-15
 Be part of the courtroom drama! Work with real facts and surprising situations to get to the bottom of the case. Actively participate in a mock trial in a live courtroom setting. Take on the role of a judge, lawyer, paralegal, witness, bailiff or juror, and learn more about what it takes to have these jobs. Learn about the legal system, your rights, the law and legal proceedings, and careers in law.

Welding & Metal Fab—Ages 11-17
 (See description above)

Movie Maker—Ages 11-13
 A complete hands-on production workshop: pre-production, audio, and editing.

Woodworking: Table 4 One—Ages 11-17
 Build your own side table! Using state-of-the-art equipment.

Robotics—Ages 11-17
 Explore the operation and programming of FANUC robots.

August 20-22

Baking & Decorating—Ages 11-17
 Learn to make delicious desserts and bakery items. Explore how to design your items using a variety of trendy designs! Explore careers in the baking industry, such as baker, cake decorator and more.

Recreation & Wellness—Ages 11-17
 Don't get stuck working behind a desk all day...instead explore careers with movement and adventure such as personal training, group fitness, and recreation programming. In this camp you get to be active and feel spectacular with healthy lifestyle practices in fitness, nutrition, and mindfulness. Rock a variety of fun fitness and wellness classes using the latest equipment in our new fitness studio. Learn about health analysis tools.

Engineering Explorations—Ages 13-17
 Exposure to 4 different applied engineering and technology pathways to help you identify the best fit for you. Areas include: Architectural, Mechanical, Civil, and Electronic Technologies. Explore through cool hands-on activities and projects. Tackle a real-world problem, learn how the problem would be approached, and deliver practical solutions.

Diesel TECH Fit—Ages 11-17
 What's it take to move 80,000 pounds down the highway? Get up close to a nine 500 horsepower engines that power the trucks moving freight. Explore if diesel tech is a fit for you.
