

Dear Heilicher Parents,

I am thrilled to announce some exciting updates to our after-school activities, HaBirim, and School's Out programs. Moving forward, all these programs will fall under the unified title of "School's Out," reflecting when these programs take place.

We will still offer the same fantastic after-school activities, along with some exciting additions. Our HaBirim after-care program will see some schedule and structure revamps for a better experience. Our seasonal and holiday day camps, also under the School's Out umbrella, will continue to provide enriching experiences during school breaks. This change also allows me to adopt the more simplified title of "School's Out program director"!

I am happy to direct everybody to the NEW [**School's Out Programs**](#) webpage, where you will go to register and find the information you need for upcoming activities, HaBirim, day camps, and other School's Out programs. Classes are listed for upcoming seasons this year, but they may be subject to change. To keep up with any changes, you can sign up to receive [**School's Out emails**](#).

By signing up for the mailing list, you will stay informed about upcoming classes, registration date reminders, and any schedule changes for all of our School's Out Programs during the 2024-2025 school year. You can choose to receive emails about activities, HaBirim, and/or day camps, based on your interest.

There are still a lot more exciting changes coming your way. I am very much looking forward to another awesome year of Heilicher's School's Out programs!

Best Regards,
Jeremy Savran
School's Out Program Director
