

Hi! I'm Thalia Tosetti, a Psychology major attending American University in Washington D.C. I'm looking for housing for an AmeriCorps VISTA position with the Homeless Prevention Council (HPC) on the Lower Cape. I am clean and tidy; I would be willing to help around the house if need be and if there are animals (which I love), I would be willing to take care of them or take them out as well. I love to paddle board and surf in my free time as well as visit local restaurants. I am easy going and laid back and I currently live with my grandma, so I am used to taking care of others and helping keep my house clean!
