## 2020-2021 Seed Educator Applications Open

**Help train a rising generation of healthcare providers to create durable, lasting change and improve care and outcomes for millions of patients, by applying to be a Seed Educator!**

**Seed Global Health** is excited to announce the opening of applications for the 2020-2021 cohort of Physician, Nurse, and Midwife Educators!

Seed is looking for skilled and qualified physicians, nurses, and midwives who are not only passionate about global health, but who are committed to strengthening health systems and building human resource capacity for healthcare education, training, and delivery in sub-Saharan Africa.

By investing in the education and training of health professionals, we can create a future in which every country has a robust health workforce that is able to meet the health needs of its population.

**Join us and become an agent of change...**

# APPLY NOW

## Application Deadlines

Applications must be submitted by:

**January 15, 2020 - for July 2020 deployments**

## Overview

Seed Educators work with their local counterparts in sub-Saharan Africa to help meet critical health education, practice, and policy priority needs identified by our partners. Together, they advance health professionals' education and training in the classroom and clinical setting. Ultimately, they enhance health workers' ability to deliver services effectively and sustainably where needed the most.

## Eligibility

Seed Educators serve as visiting faculty for a minimum of one academic year and placed at an academic site where their unique skill set will best meet the needs of our partner institutions.

### Physician Applicants

- Be a board eligible or board certified physician at the time of deployment (*Winter 2020 or Summer 2020*)
- Have an active medical license in the United States at the time of deployment (*Winter 2020 or Summer 2020*)

### Nurse or Midwife Applicants

- Have an advanced degree in nursing (masters in nursing education, advanced practice nursing)
- Have at least 2 years of nursing experience, following advanced degree matriculation at the time of deployment (*Winter 2020 or Summer 2020*)
- Have experience as a nurse or midwife educator in the classroom, skills/simulation lab, and/or clinical setting
- Have an active RN license in the United States at the time of deployment (*Winter 2020 or Summer 2020*)

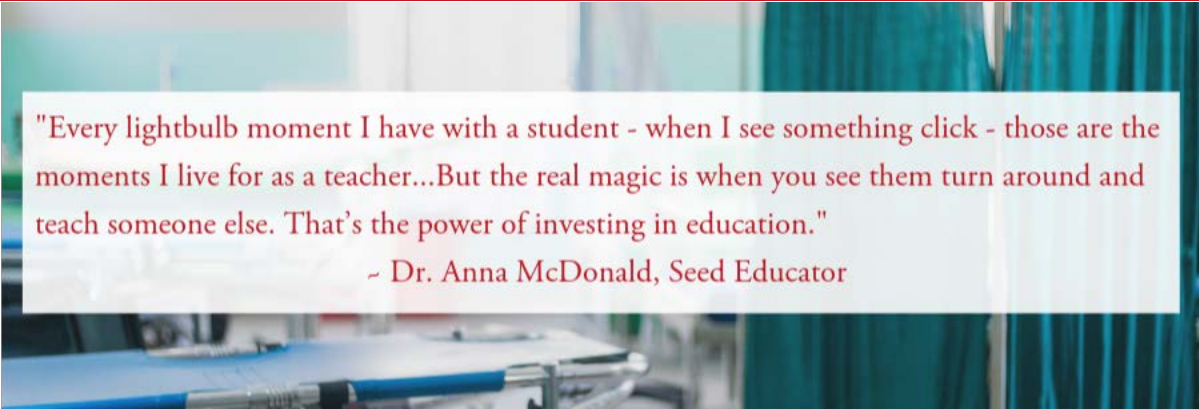

All applicants must have experience working with underserved populations either domestically or abroad, be able to meet licensing criteria and obtain appropriate clinical licenses in the host country they are assigned to, and must be legally authorized to work in the United States.

## Benefits of Service

Educators receive a number of benefits for their year of service that include:

- Monthly salary
- Readjustment allowance
- Housing
- Transportation to and from host country
- Paid time off
- Comprehensive Medical and Dental Insurance
- Medical and Security Assistance and Evacuation Insurance
- Malpractice Insurance
- Workers Compensation Insurance
- Distinction as a Massachusetts General Hospital Fellow in Global Clinical Education

"Every lightbulb moment I have with a student - when I see something click - those are the moments I live for as a teacher...But the real magic is when you see them turn around and teach someone else. That's the power of investing in education."

~ Dr. Anna McDonald, Seed Educator
