

Subject: Resort, RV resort and campground guidance

Hello Ben,

Here is the most up to date guidance we have on how the Stay at Home Order will impact resorts, RV resorts and campgrounds.

Please let me know if you have additional questions.

Thank you.

Resorts

- The hotel portions of resorts (including rented cabins) can open as planned and can accept guests.
- Guests do not have to be members of a critical sector to stay at a resort.
- Communal amenities may not be open for use, except for the following that may be open provided social distancing and enhanced cleaning protocols are followed:
 - Retail food stores
 - Laundry facilities
 - Fish cleaning stations and docks
- While resorts can accept visitors, the Stay at Home Order continues to discourage unnecessary travel, and the Order asks people to remain close to their homes.
- Resorts do not have to open if they are not comfortable doing so.

RV Resorts

- People who rely on their campsite as a primary residence, or that are seasonal renters and who maintain personal property at their site, can continue to utilize the RV resort.
- Camp sites can be used on a short term or temporary basis by people who require necessary shelter for the purposes of work or required social distancing.
- Camp sites that are reserved for temporary or rotating use for purely recreational and short term purposes are not allowed.
- Communal amenities may not be open for use, except for the following that may be open provided social distancing and enhanced cleaning protocols are followed:
 - Bathrooms/shower buildings
 - Retail food stores
 - Laundry facilities
 - Fish cleaning stations and docks
- While people can visit RV resorts as outlined above, the Stay at Home Order continues to discourage unnecessary travel, and the Order asks people to remain close to their homes.
- RV resorts do not have to open if they are not comfortable doing so.

Private and Public Campgrounds

- All private and public campgrounds and dispersed camping sites are closed to **recreational** camping. This means that camp sites that are reserved for temporary or rotating use for purely recreational and short term purposes are not allowed. This closure **does not apply** to:
 - People who rely on their campsite as a primary residence, or that are seasonal renters and who maintain personal property at their site.
 - Camp sites used on a short term or temporary basis by people who require necessary shelter for the purposes of work or required social distancing.
- Communal amenities may not be open for use, except for the following that may be open provided social distancing and enhanced cleaning protocols are followed:
 - Bathrooms/shower buildings
 - Retail food stores
 - Laundry facilities
 - Fish cleaning stations and docks
- While people can continue to visit campgrounds as outlined above, the Stay at Home Order continues to discourage unnecessary travel, and the Order asks people to remain close to their homes.
- Campgrounds do not have to open if they are not comfortable doing so.
