- Questions ask: Have you EVER? No limitations on how long ago.
- If yes – get SBA form 912 completed and supporting documentation

You are in luck! We made it a Bakers Dozen as this is important not to overlook!

13. Pledge of Personal Assets as Collateral

- If the business assets do not fully secure the loan, SBA requires that any personal real property with lendable equity be pledged as collateral.
- If there is no lendable equity, the pledge of the guarantor's personal residence may not be required.

The key is recognizing items that need to be addressed early in the process and discussing with your client and lender so there are no last minute delays for your closing!
