## **Nick Davis Joins International Grooving & Grinding Association as Director of Technical Services**

WEST COXSACKIE, NY – (Oct. 18, 2022) – [The International Grooving & Grinding Association \(IGGA\)](#) – a non-profit trade association founded in 1972 that is recognized as the industry’s lead technical resource in the development and marketing of optimized pavement surfaces and pavement preservation around the world – has announced the hiring of Nicholas R. Davis as its Director of Technical Services.

In the newly created position, Davis will join IGGA executive director John Roberts in pursuing the association’s goals through the development and implementation of educational and promotional initiatives while providing technical resources and engineering guidance to contracting agencies, consultants and industry partners.

Prior to joining the IGGA, Davis gained six years of experience as assistant engineer at the New York State Department of Transportation (NYS DOT), where he authored specifications and reports, managed a certification program for testing agencies that perform ride quality testing, and managed specification and data collection for the first performance engineered mix (PEM) project in New York State, among other accomplishments. He participates in the Road Profile User Group (RPUG) and National Concrete Consortium (NCC) and was recently selected to be the NCC state representative for the Northeast region. Davis’s previous experience includes civil engineering support roles with the City of Troy in Troy, N.Y. and the Absolute Fire Protection company in Selkirk, N.Y.

---

Davis earned a Bachelor of Science degree in Civil Engineering Technology from State University of New York Polytechnic Institute in 2015 as well as an associate degree in Applied Science from Hudson Valley Community College in 2013. He has a personal interest in real estate investing, business management and travel, which will contribute to his success in his new role.

The IGGA created the new position in order to assure the organization's continued growth and preeminence in the grooving, diamond grinding and concrete pavement preservation markets.

"We are very pleased to bring Nick to our organization and believe he has the experience and skills necessary to help the IGGA continue to meet its goal of supporting and advocating for the pavement industry worldwide," said John Roberts, executive director of the IGGA.

### **About the IGGA**

*The International Grooving & Grinding Association (IGGA) is a non-profit trade association founded in 1972 by a group of dedicated industry professionals committed to the development of the diamond grinding and grooving process for surfaces constructed with Portland cement concrete and asphalt. In 1995, the IGGA joined in affiliation with the American Concrete Pavement Association (ACPA) to form today what is known as the IGGA/ACPA Concrete Pavement Preservation Partnership (IGGA/ACPA CP3). Today this partnership serves as the technical resource and industry leader in the marketing of optimized pavement surfaces, concrete pavement restoration and pavement preservation around the world. The mission of the IGGA is to serve as the leading technical and promotional resource for the acceptance and proper use of diamond grinding and grooving as well as PCC preservation and restoration.
