Small Business is Big Business in Gainesville-Hall County

The Greater Hall Chamber will recognize our Small and Family Businesses of the Year at the upcoming 117th Annual Meeting & Gala on Thursday, May 15. Small Business is big business in Hall County and in addition to recognizing small business success, your Chamber offers resources, networking, and economic development support.

Of the 5,957 businesses registered in Hall County, 99% of those are independently owned small businesses that bring character, innovation, jobs and vitality to our economy. Their success is deeply intertwined with the health of our region.

National Small Business Week is May 4-10, and we hope that brings more awareness to the importance of supporting local businesses. Each time you shop locally, dine at a neighborhood restaurant, or hire a local service provider, you are directly investing in the prosperity of our community.

How your Greater Hall Chamber Supports Small Business

The Chamber is proud to champion the small businesses that make our community unique and advocate for policies that promote entrepreneurship. We offer programs specific to small business, including: Marketing Workshops, Monthly Small Business Seminars, Small Business Guide of Partners and Resources, and Small Business of the Month Recognition.

Small businesses are more than just economic contributors — they are community builders, innovators, and local heroes. As we look toward the future, it is essential that we continue to support and celebrate the small businesses that make our community strong. We are stronger when we shop locally, invest locally, and do business together.

Join us for an Elegant Evening CELEBRATING A YEAR OF SUCCESS

Presented by the Board of Directors of the Greater Hall Chamber of Commerce Chairman
Glennis Barnes | Chairman-Elect Tim McDonald | President & CEO Tim Evans

Residential Beautification Award

It took every bit of a year for **Nancy Sykes** to completely renovate her 928 square foot home at 419 Prior Street in Gainesville – our Residential Beautification Award Recipient. The home she calls “**Little Cottage Pink Door**” was built in 1910, making it 115 years old. Everything in the house, including the wiring, plumbing, HVAC, roof, and more had to be replaced. Nancy said, “This cottage is perfect for me. I love history and often think of the stories related to this house. It survived the great tornado in 1936, and my inspector said the wood in the house is so hard that you can’t possibly drive a nail into it!”
