Volunteers Donated  
**4,363** Hours

**\$104,886**

Value of time  
donated

**2,100**

storm drain labels applied  
and **4,450** informative  
door hangers distributed  
during **21** projects

**23**

## volunteer training sessions

empowered volunteers to become student  
interns, group and project leaders

## Community Cleanups

**150** hours

**62** volunteers

**4** truck loads of trash

## 4 Natural Lands Projects

## LAKEWATCH

**400**  
hours

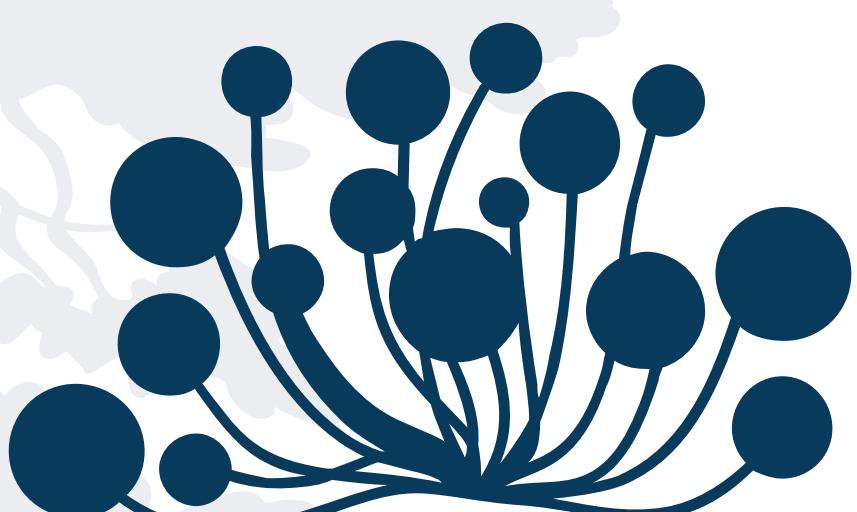

**33**  
volunteers

sampling lakes for water  
quality monitoring

**1,080**  
residents

reached through **70** K-12  
EnviroScape and adult  
education presentations

Planted  
**60**  
aquatic  
plants

 **2.5** miles  
of public trails enhanced

**16** eVIP  
Interns  
donated **2,100** hours  
to **6** EPD programs

**31**  
trees  
planted

**65** cubic  
yards  
of invasive plants  
and debris removed  
from environmentally  
sensitive areas

## THANK YOU for making a difference!

The environmental Volunteer & Internship Program (eVIP) offers citizens of all ages a way to help the Environmental Protection Division conserve, protect and enhance Orange County's environment for current and future generations. Our volunteers help us improve and protect our ecosystem by working on projects such as cleaning up our watersheds, restoring habitat, labeling storm drains, educating other residents, sampling water bodies, marking trails, working as interns and more.
