BAA EDUCATION DAY REVIEW

Saturday 29 October was a busy day at Glenelg High School in Howard County Maryland, where the Baltimore Area Alliance hosted its annual Education Day- a series of workshops, presentations and round table discussions geared towards helping new and veteran FRC teams prepare for the upcoming build season. Over 100 students, mentors and parents from Maryland, DC and Virginia attended 38 workshops on 32 unique topics.

At the end of the day, in response to the survey question "Was this a worthwhile experience for you," responses included comments like "the only problem was that I had too many things I wanted to attend that were opposite each other," "Every presentation was valuable," "It is great to hear other teams' successes or failures - which is similar to our experience," "I had a lot of fun," and "I learned a lot and got to meet new teams."
