

## LOCAL MOTORS NATIONAL HARBOR PRESENTS STEAM Saturday with FIRST Chesapeake

This October, Local Motors and FIRST will kickoff our very first STEAM Saturday event. After working together for years on the west coast, we're proud to continue that tradition here in Maryland's National Harbor.

As the FIRST Tech Challenge kicks off and the school year gets into full swing, we are thrilled to host FIRST Robotics Competition Teams from the Chesapeake District. There will be demonstrations, stories of problem solving, and an active discussion about how our lab here can help produce the best FIRST teams in the country.

After a morning of FIRST, we'll continue with our regularly scheduled Little Designers Club, a crowdfunded curriculum for computer aided design and 3D printing.

**Date:** Saturday, October 8, 2016

**Location:** Local Motors National Harbor

**FIRST Event:** Lunch and Learn with FIRST Chesapeake

**Agenda:**

- 11:00am - Welcome - David C. Woessner, General Manager - Local Motors
