

# 7-Day Test Positivity Rate

7-Day Test Positivity Rate is the most recently reported on each date. The DC graph shows a daily positivity rate. As testing numbers have increased, 7-day test positivity rates have flattened. According to the World Health Organization, a test positivity rate should be under 5%.

DC information lags FXHD, NOVA, VA and MD information by one day.

# Day to Day Change in Tests Reported

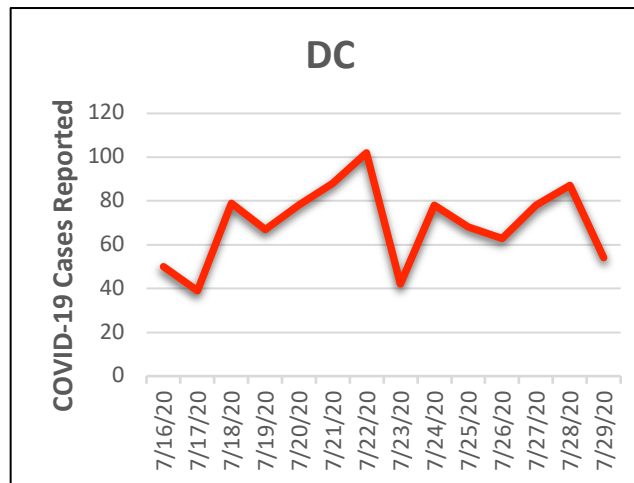

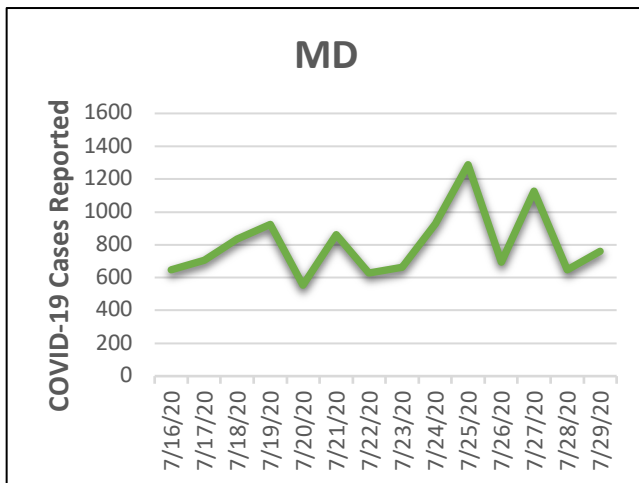

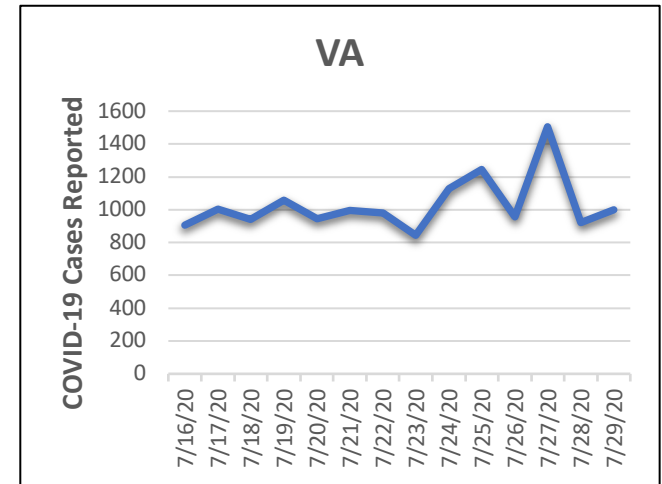

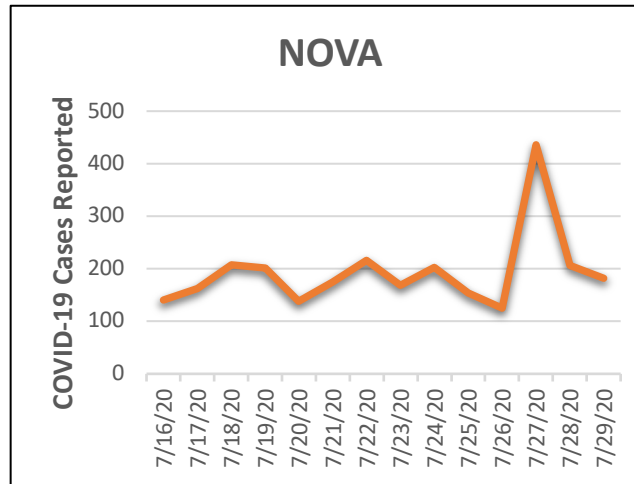

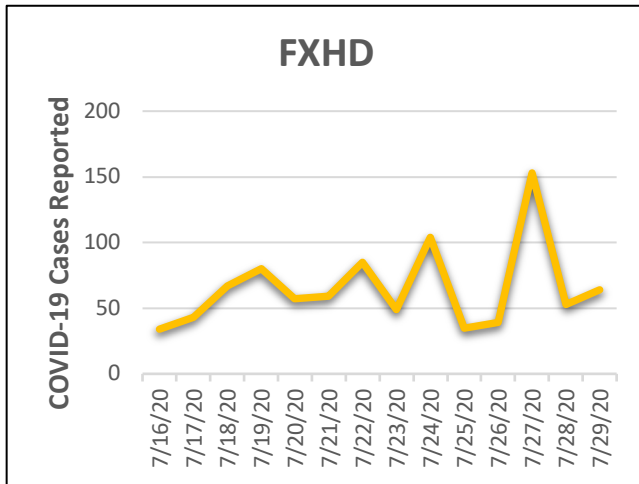

All jurisdictions continue to focus on increasing their testing numbers. VA has established a goal of 10,000 tests per day that it is exceeding. The 7/29 NOVA number does not fully reflect total tests reported for that day.

# % COVID-19 Hospitalized to Total Bed Capacity

Information is not currently available for FXHD

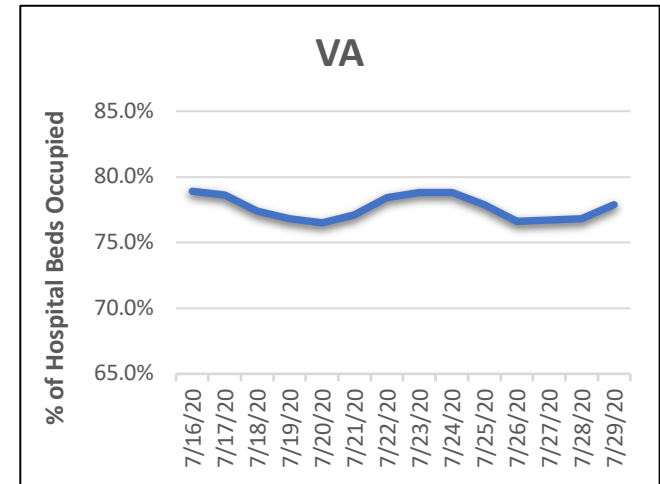

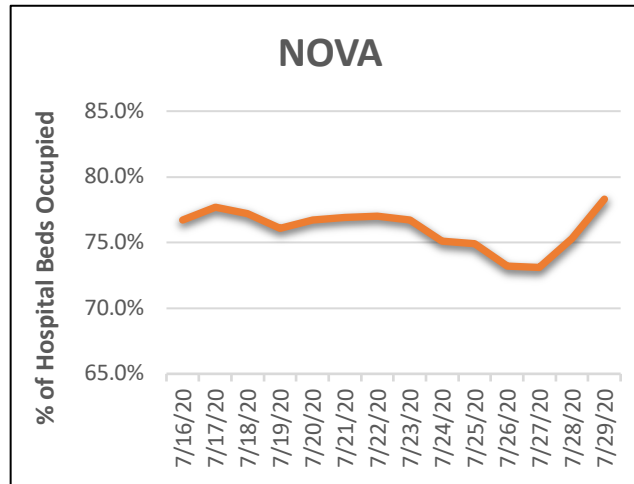

COVID-19 hospitalizations remain a small percentage of total staffed bed capacity.

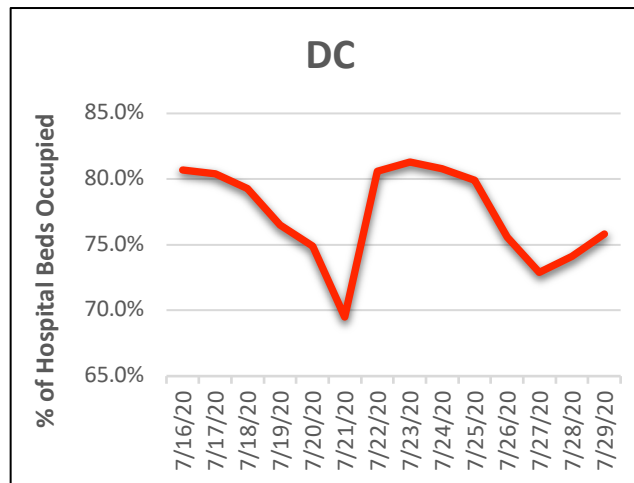

DC information lags FXHD, NOVA, VA and MD information by one day.

# Total Beds Occupied to Total Bed Capacity

Information is not currently available for FXHD

Information is not currently available for MD

Staffed bed utilization continues to hover between 70% and 80% for all jurisdictions. This is consistent with Center for Disease Control guidelines. Excess bed, ICU and ventilator capacity exists as well for the jurisdictions for which this information is available.

DC information lags FXHD, NOVA, VA and MD information by one day.
