

7-Day Test Positivity Rate

As testing numbers have increased, 7-day test positivity rates have declined. According to the World Health Organization, a test positivity rate should be under 5%.

Day to Day Change in Tests Reported

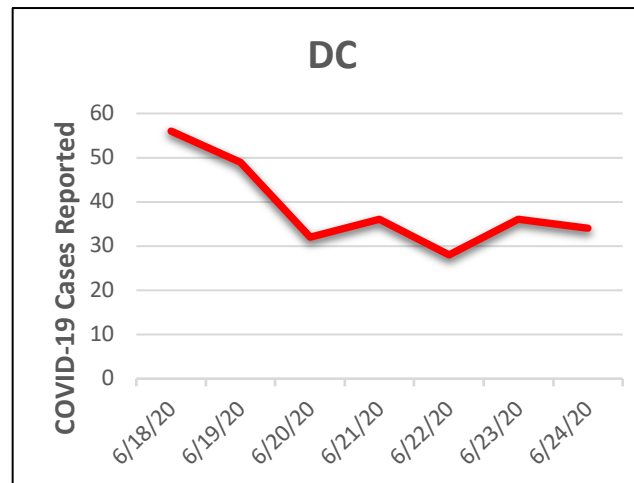

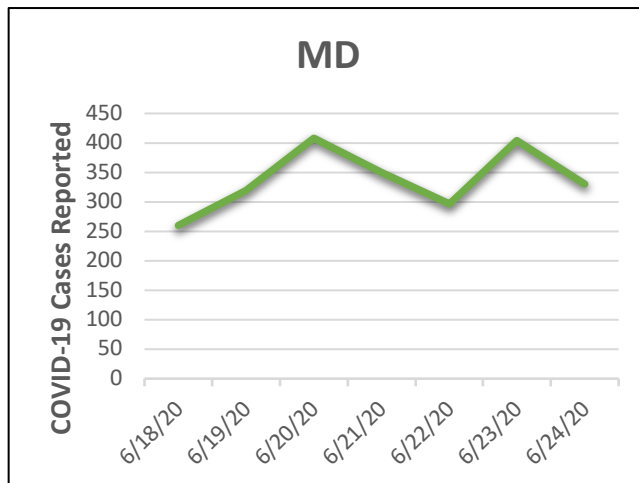

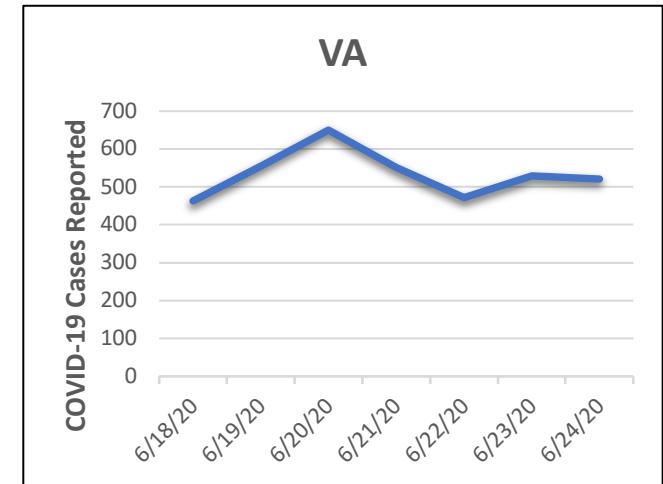

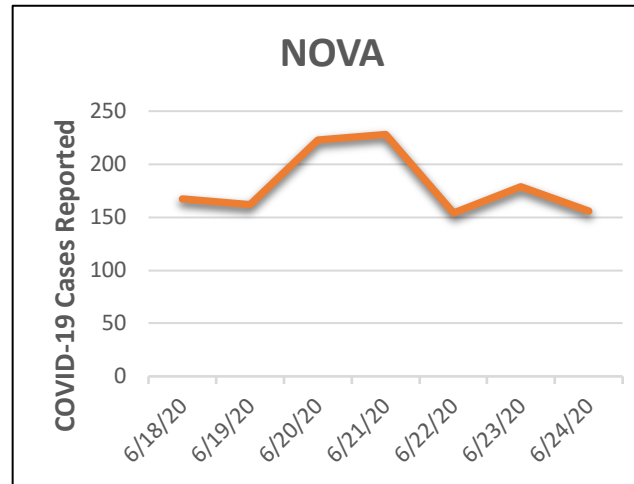

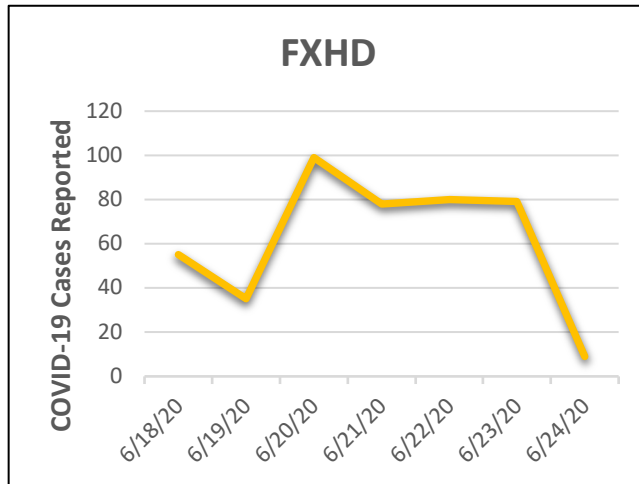

All jurisdictions continue to focus on increasing their testing numbers. For example, VA has established a goal of 10,000 tests per day. Currently, there are over 30 testing sites in the Fairfax Health District (FXHD). In addition, special testing events are being held in areas of FXHD that are experiencing higher case volumes.
